

LEGION ASKS CONGRESS FOR POPULAR VOTE ON PROHIBITION

Convention Adopts Resolution, 1008 to 394, for Submission of Repeal or Modification to States and by Them to People.

REJECTS PLAN FOR IMMEDIATE BONUS

Missouri Delegation Against Cashing Compensation Certificates—H. L. Stevens Jr. Chosen National Commander.

By the Associated Press.
DETROIT, Sept. 24.—The American Legion's national convention today voted to ask Congress to submit repeal or modification of the present prohibition laws to the states with the request that each state submit the issue to the voters and also rejected a resolution endorsing the immediate payment of adjusted compensation certificates at face value.

The vote on the prohibition referendum was 1008 to 394 and on the bonus matter 902 to 347. After rejecting the bonus resolution, the convention by acclamation adopted a resolution calling upon every able-bodied veteran to refrain from "any burden on national, state or municipal government."

Henry L. Stevens Jr., of Warsaw, N. C., was elected National Commander of the Legion this afternoon.

Stevens was elected by acclamation as all other candidates withdrew before the completion of a roll call. He succeeds Ralph T. O'Neil of Kansas.

Stevens was one of a long line of military men, was one of the first to enlist from his home town during the World War. His grandfather was a Revolutionary soldier and his grandfather was a Revolutionary soldier.

AGRICULTURE DEPARTMENT TO FIND OUT HOW BEER WOULD HELP THE FARMER

By the Associated Press.
WASHINGTON, Sept. 24.—A notarial official inquiry into the possibilities of legalized beer, this time directed toward the effect on the farmer, is being undertaken by the Government. Secretary Hyde disclosed today that the Agriculture Department was seeking data on how a resumption of legitimate brewing would be felt on the farm. It will determine how many farmers might be employed in raising hops and barley and other materials.

The Secretary said he had received many requests for information on the much-debated point of beer as a measure of farm relief. None of the requests, he said, came from the White House. The President might learn of the result, he continued, but the returns would not go directly to him from the Agriculture Department.

Some newspaper men remarked to the Secretary that he had been listed in the press as being "on the right side of the question."

"What is the right side?" asked Hyde. "That was interpreted as being the liberal side," was the answer.

"What," he exclaimed, "and me a Methodist?"

NEW YORK STRIKE BREAKER HELD ON INCOME TAX CHARGE

Standard Oil Co. Is Named As One Source of Payments—Jury \$200,000.
By the Associated Press.
NEW YORK, Sept. 24.—The Standard Oil Co. of New York and several other companies are named by United States Attorney Howard W. Ameli as the sources of payments totaling about \$200,000 to Peter de Vito, reputed income tax dodger, for services in combating the steamers' strike in 1929.

De Vito, who was arrested on charges of incorrectly reporting an income of \$503,000 allegedly received during five weeks of the strike, was described by Ameli as "the biggest strikebreaker in Brooklyn."

The legal department of the Standard Oil Co. said De Vito was engaged to furnish men and trucks for the transportation of oil and gasoline during the strike, but it was unable to determine exactly how much was paid him.

Ameli also characterized De Vito as the "biggest racketeer in the strike breaking business" and said he is "reputed to be the only man in Greater New York who can successfully break a strike at any time."

SAYS NAUTILUS CAN'T RETURN TO U. S. UNDER OWN POWER

Professor Declares Cruise Was "Awful," Thinks Submarine Destroyed.
By the Associated Press.
OSLO, Norway, Sept. 24.—Prof. Harald U. Sverdrup, a member of the Wilkes expedition into Arctic waters, said today it was impossible for the submarine Nautilus to return to the United States under its own power.

Commenting on orders from Washington that Sir Herbert should deliver the submarine to an Atlantic seaboard port, he said he considered the craft was fit only to be sunk or sent to shipbreakers. It might be possible to tow it, he said, in his opinion, but not before next summer.

"The boat would certainly go to the bottom long before she arrived in America," he added. Prof. Sverdrup said the submarine was in a bad way, confirmed his statements and said the ship virtually was a wreck.

Asked about the cruise under polar ice, Prof. Sverdrup said: "I am bound to silence. I may safely say the trip was awful."

Commenting on orders from Washington that Sir Herbert should deliver the submarine to an Atlantic seaboard port, he said he considered the craft was fit only to be sunk or sent to shipbreakers. It might be possible to tow it, he said, in his opinion, but not before next summer.

RICHMOND HEIGHTS SAYS COLLECTOR OWES IT \$12,885

Six Aldermen Adopt Auditor's Report of Claims Against Mrs. Celeste Tripp Butenhoff.

FRESH DEVELOPMENT IN POLITICAL FIGHT

Woman Attacked Refused to Vacate Office When Successor Was Elected—City Suing Her for \$7000

An auditor's report filed with the Richmond Heights Board of Aldermen last night sets forth that Mrs. Celeste Tripp Butenhoff, Collector, owes the city \$12,885.54, adding that if pending litigation is sustained concerning her right to retain certain fees, there will still be a balance owing to the city of \$4735.48.

The report was accepted by vote of six of the 10 Aldermen, four not voting. Mrs. Butenhoff, through her attorney, Henry G. Triesele, said today that the audit was unfair and that all funds owing to the city had been accounted for by her.

The situation is another development in the political fight which has revolved about the office of City Collector since Mrs. Butenhoff refused to give it up after she was defeated by Miss Agnes Ibbotson at the polls in April, 1930.

A statement of the auditors, Cornell & Co., accompanying the report, points out that Mrs. Butenhoff claims \$8150.00 in commissions at the rate of 4 per cent on taxes collected since 1928. A suit for the city against Mrs. Butenhoff for \$7078 is pending at Clayton, based on her claim at the time the suit was filed last May.

Attacks Fairness of Audit. Triesele, speaking for Mrs. Butenhoff, charged that the audit was prepared by instructions of the City Attorney, Edward J. Houlihan, and that it has ignored details shown by the books which would explain his client's position fully.

"In the first place," he said, "the auditors did not mention an error in the books of approximately \$1500, discovered by them and admitted by Mrs. Butenhoff, which is now in the Collector's account and which she has in the bank. The auditors themselves made an error of \$1600. We have a cancelled check to prove it." He declined to explain further the nature of the error.

"Approximately \$500 of the \$4735 reported as due the city," Triesele said, "had been lawfully paid to the City Clerk in the form of 25-cent commissions on delinquent tax bills. Finally, about \$900 had been retained by the Collector, consisting of 2 per cent commission on delinquent taxes."

Successor Kept Out of Office. Mrs. Butenhoff has thus far successfully resisted every effort of Miss Ibbotson to assume the office to which she was elected. The Board of Aldermen refused to accept Miss Ibbotson's bond on technical grounds after the election, last April, with a change of political party. Miss Ibbotson received a certificate of election, but Mrs. Butenhoff still held out, so Miss Ibbotson was named Assistant City Clerk at a salary of \$30 a month.

Following Mrs. Butenhoff, who had held that office in addition to the collectorship, Aldermen of the Progressive party, opposed to Mrs. Butenhoff, who voted to accept the auditor's report are: John J. Flanagan, Anthony E. Mundwiler, August Spahn, William Lovell, Robert E. Butler and Albert Riely. Aldermen of the Citizens party, not voting, were: Robert Reis, Marshall B. Stevens, John Angustus and Harry Schultz.

FOREST FIRES IN CALIFORNIA Seven Residents and Two School Houses Burn.

By the Associated Press.
SAN FRANCISCO, Sept. 24.—Forest rangers checked up today on property damaged from several timber fires, burning in scattered areas throughout the state.

One of the worst blazes was in Mendocino County at Comptche, where seven residences were destroyed yesterday. The fire burned along a 1 1/2-mile front, and for some time defied efforts of 300 men to extinguish it. Half a dozen smaller fires burned on all sides of the main Mendocino blaze. Aside from the residences, two rural school houses, three ranch homes and the logging camp of the Albion Lumber Co. were destroyed. Reports said most of the blazes were under control.

TESTIFIES TO CRIME BEHIND DOORS OF TAMMANY CLUBS

Detective Says Police Knew Perpetrator of Two Killings in Place Run by Clerks of City Court.

HAS 'WANTED CARD' TO PROVE POINT

Capt. Valentine Tells of Attempts to Suppress Gambling and Liquor in Political Hangouts.

By the Associated Press.
NEW YORK, Sept. 24.—Gambling, liquor selling and a double killing were described today to the Hofstadter Legislative Committee as incidents in the night life behind the heavily barred doors of Tammany district clubhouses.

A city detective, discussing two slayings in 1926 which he said occurred in a club headed by Harry C. Perry, chief clerk of the City Court, testified that police had known for five years the identity of "the actual perpetrator" of the killings.

To back up his contention before the committee by investigating the municipal government he presented a police "wanted card" bearing a picture of the suspect.

"There is an indictment pending or has a bench warrant ever been issued for this man?" asked State Senator John J. McNaboe, Democrat.

"No," replied the witness, Detective John O'Neill.

After a long argument the committee voted to admit into its records the "wanted card" and photograph as Lorenzo Fuzzio, alias Larry Young, 48.

Earlier in the day Capt. Lewis J. Valentine, a former police inspector, told of what he called unsuccessful attempts to persuade Perry and John H. McCoy, general manager of the club, to suppress gambling in Democratic clubs.

He also testified that liquor had been on sale in a gambling room of Sheri Thomas, M. Farley's club and that a loaded revolver was found when police raided the place.

The story of all raids on the clubs was much the same. Seldom was anyone convicted on the gambling charges.

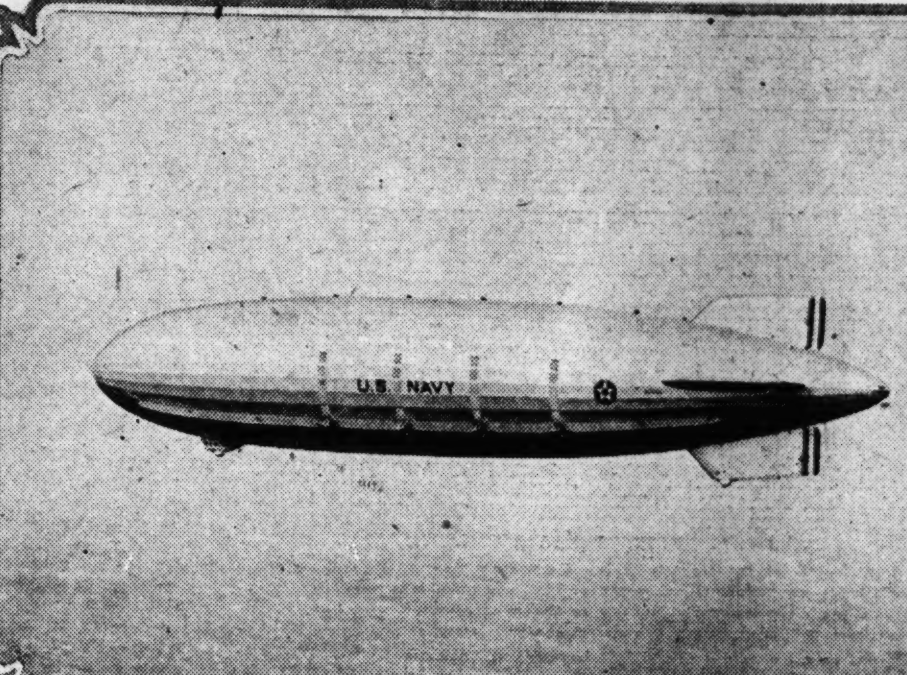

As an example, the Captain cited that when 82 men arrested in the Perry club were hauled into court, all were discharged after it had been pointed out no complaint was made by the landlord (Perry) or by the tenants (members of the club).

Plea to Halt Gambling. Valentine said it was while a Democratic club headed by former Alderman Peter J. McGuinness was under observation that he was sent by the Police Commissioner (George McLaughlin) to McCooey with a direct plea for assistance.

"The commissioner told me to ask McCooey to suppress the gambling there before a scandal resulted," the witness testified. "Large numbers of men, particularly railroad employees in yards nearby, were losing their money to professional gamblers."

"He asked me to urge McCooey to put a stop to it so the organization would not be scandalized."

'Akron' in Flight as Seen From Escorting Plane

AERIAL view of the United States Navy's new dirigible, largest in the world, during its first test flight over its home port, Akron, O., yesterday. One hundred and thirteen persons were on board on the flight of nearly four hours.

ROBBERS ROUTED BY GUN-FIGHTER OF OLD OKLAHOMA

70-Year-Old Associate in Broker's Office Fires Revolver He Seized When He Was U. S. Marshal.

A holdup at the brokerage office of H. J. Kattelman & Co., in room 205 of the Central National Bank Building, 705 Olive street, was frustrated at 7:20 o'clock this morning when Evitt D. Nix, an associate in the firm, fired a shot at the two holdup men and forced them to flee.

Nix, who is 70 years old, was United States Marshal in Oklahoma in pioneer days and the revolver he used is an old frontier model .45 caliber which he took from Bill Doolin, a member of the notorious Dalton gang.

"I saw the two men in the hall as I got off the elevator," Nix related, "and I didn't think they looked quite right, but I unlocked the door to the office and went on in. I had entered my own office when I heard the outer door open and looked out to see them coming in the door."

"One said, 'Old man, we don't want to hurt you, so give us what you've got and open up the safe.' I didn't see any revolver and I knew I had an equal chance with him, so I said, 'Wait a minute!' and stepped in my office to get the revolver out of a handbag. I had just brought it down this morning, after showing it to some friends last night."

"I'm pretty quick getting about—I used to have to be—so I was right back out there. I said, 'put up your hands, both of you, or I'll kill you!' They were hardly 20 feet away. You never saw such a scramble. One looked as if he was going through the glass door and I thought he had. I shot at the other one—at his legs so he could just bring him down without killing him. But he was too quick for me."

"I ran out when they turned the hall and saw them turn the corner toward the stairway but I couldn't get a shot. They had got out of the building before I got down stairs and called to some men in the lobby."

By the time police had arrived, Nix had begun to dig the flattened bullet out of a hole in the wall, just about the height of a knee from the floor. He turned over the revolver, which he has had for more than 35 years, for the officers to examine.

WHITE STAR LINE CRISIS Directors Told Something Drastic Must Be Done.

By the Associated Press.
LONDON, Sept. 24.—Sir Walter Runciman, presiding today at a meeting of directors of the White Star Line, said drastic measures must be taken if the shipping company was to continue to operate.

"It must be obvious," he said, "that the company cannot continue its operations unless something drastic is done, for it is losing money all the time. What steps we will take I am unable to say at the moment, but strenuous efforts are being made to protect the good will of the line." The company's accounts for the year show a debit balance of \$187,000.

BRYAN WAS RIGHT BUT AHEAD OF HIS TIME, BRITON SAYS

Declares Stabilization of Silver Necessary to Ease World Depression.

By the Associated Press.
LONDON, Sept. 24.—Sir Hugo Cunliffe-Owen, president of the Board of Trade, speaking at a luncheon as chairman of the British-American Tobacco Co., today asserted that quick action toward stabilizing the price of silver is necessary if the world depression is to be eased.

Asserting that silver has depreciated in value by 66 per cent and that it is the basis of value for three-fifths of the world's population, he declared that its price must be increased and stabilized or business cannot be revived. China, India and Mexico he mentioned particularly as depending on silver as a basis of value just as other countries depend upon gold.

Four American corporations control 87 1/2 per cent or more of the world's silver production, he said. At the same time India has on hand between 300,000,000 and 400,000,000 ounces of silver. He suggested that the American corporations and India should combine to control the price of silver by seeing to it that none is sold on the market except at a stipulated price.

The shade of William Jennings Bryan hovers over the situation now, Sir Hugo said, and C. H. Minor, of the International General Electric Co., agreed with him. Bryan was right but ahead of his time, said Minor.

AUTOGYRO LANDS ON SHIP

Landing Crew Not Required on Navy's Aircraft Carrier.
By the Associated Press.
CAPE HENRY, Va., Sept. 24.—With Lieut. Melville Pride of the Hampton Roads Naval Air Station Experimental Division as the pilot, and Capt. Kenneth Whiting, commander of the station, as passenger, an autogyro was landed on the deck of the aircraft carrier Langley off the Virginia Capes yesterday without a sign of difficulty.

The performance was repeated three times by Lieut. Pride, each time with a different passenger. The ship was taxied about the deck and placed in a taking-off position without the aid of the landing crew that stood by.

\$100,000,000 TREASURY SALE

Short-Term Bills Will Be Offered on Sept. 28.
By the Associated Press.
WASHINGTON, Sept. 24.—Another turnover in part of the Government's short-term debt was announced yesterday by Secretary Mellon, who said that the Treasury would sell \$100,000,000 in Treasury bills to the highest bidder on Sept. 28.

The proceeds of the sale will be used to retire \$100,076,000 of bills which fall due on Sept. 30. The new bills will be dated Sept. 30 and will mature on Dec. 30.

ROOSEVELT SIGNS RELIEF BILLS

\$20,000,000 Fund Authorized to Help Unemployed.
By the Associated Press.
ALBANY, N. Y., Sept. 24.—Gov. Roosevelt has signed the two bills to give New York State a \$20,000,000 unemployment relief program. The measures were adopted by the recent extraordinary session of the Legislature, which considered emergency means to give relief to an estimated million unemployed next winter. A 50 per cent increase in this year's income tax rate to raise the \$20,000,000 is provided.

DIRIGIBLE AKRON UP NEARLY 4 HOURS ON MAIDEN FLIGHT

Navy Secretary and Other Officials Among 113 Persons on Board Approve Performance.

By the Associated Press.
AKRON, O., Sept. 24.—The new dirigible Akron was aloft in maiden flight for three hours and 47 minutes yesterday afternoon, in the first test for the world's largest airship, built by the Goodyear-Zeppelin Corporation for the navy.

Its success was amply evidenced in the unanimous approval from high Government officials and technical experts, who went along on the 125-mile flight as observers.

The silver hulled craft carried 113 men, passengers and crew, which sets a new record for the greatest passenger list of any airship in the world.

Already the navy is speculating on the manifold cruising possibilities disclosed in the first flight. The Akron has a cruising range of 11,000 miles at 50 knots.

"We expect," said Rear Admiral William A. Moffett, "to learn lessons far beyond those taught by the operations and experiences of the Los Angeles and the Graf Zeppelin because of the improved design of the Akron."

"Perhaps there will be trips over the Atlantic, perhaps to far-off lands now inaccessible, and perhaps over the Pacific to Hawaii, Guam and maybe beyond."

Commanding the Akron was Lieutenant-Commander Charles E. Rosendahl, former skipper of the Los Angeles and a survivor of the wreck of the Shenandoah, which occurred six years ago not far from the birthplace of the Akron.

Naval Secretary on Board. Aboard were Secretary of the Navy Charles F. Adams, Rear Admiral Moffett, David S. Ingalls, Assistant Secretary of the Navy for Aeronautics, and Paul W. Litchfield, president of the Goodyear-Zeppelin Corporation.

Shortly after 3:30 p. m., to the salute of 21 guns, the Akron weighed off. Two hundred thousand spectators, dotting surrounding hills, burst into cheers and sounded the horns of a thousand automobiles.

The colors of the United States snapped in the breeze aft, while from the control car was unfurled the Secretary of the Navy's pennant.

LEAGUE GROUP TAKES STAND FOR REVISION OF WAR DEBTS

Financial Committee Indorses Wiggin Bankers' Report and Urges 'Pressing Necessity' of Immediate Action.

ALSO RECOMMENDS AID FOR AUSTRIA

Advices Council to Send Experts to Vienna to Help in Rehabilitation and the Raising of \$35,000,000 for the Purpose.

By the Associated Press.
GENEVA, Sept. 24.—The League of Nations' Financial Committee, in a report published today, indorses the recommendations of the Wiggin Bankers' Committee for the revision of German reparations and intergovernmental war debts.

The committee also recommends that the Council send financial experts to Vienna to assist in the financial rehabilitation of Austria and urged the necessity of raising \$35,000,000 by foreign credits for this reconstruction.

The part of the report dealing with the conclusions of the Wiggin committee said: "The report recently issued by the experts at Basel emphasized the responsibility which rests upon the Governments of the world to take prompt measures to re-establish confidence. The Financial Committee can only repeat and emphasize these conclusions and urge the pressing necessity in the interest of all countries of immediate action."

The Wiggin Bankers' Committee, set up by the Bank for International Settlements at the behest of the seven-Power conference in London, recommended in August that the entire structure of intergovernmental war debts and German reparations be revised as the first step toward the return of world prosperity.

"We think it is essential," the committee said, "that before the period of prolongation of credits recommended by the London conference comes to an end that the governments concerned should give to the world the assurance that international political relations are established on a basis of mutual confidence, which is the sine qua non of economic recovery, and that international payments to be made by Germany will not be such as to imperil the maintenance of her financial stability."

Hoover to Invite Laval If French Cabinet Approves.
By the Associated Press.
WASHINGTON, Sept. 24.—A formal invitation for Premier Laval of France to visit the United States will be extended tomorrow, provided the French Cabinet approves of the trip. Secretary Stimson said today that the invitation of a visit by the French Premier to discuss world problems with President Hoover. He remarked there was no limit to the subjects which might be discussed advantageously.

Indications Are Laval Will Accept Invitation to Visit U. S.
By the Associated Press.
PARIS, Sept. 24.—Paul Claudel, French Ambassador to the United States, called on American Ambassador Walter E. Edge today to discuss the possibilities of Premier Laval's proposed visit to Washington.

The Premier's reply to President Hoover's invitation will be handed to Ambassador Edge tomorrow. Earlier in the day the Premier will submit the question to his Cabinet, to be discussed at a meeting of the Council of Ministers, with every indication at his office pointing toward acceptance and the setting of mid-October as the time of sailing.

Premier Laval has been busy with preparations for his week-end visit to Berlin. President Hoover's invitation and economic problems. It was said at the Ministry of the Interior that he would make an important statement to the French people before setting out for Berlin Saturday afternoon in order to prepare the atmosphere, such as Chancellor Brüning did before coming to Paris last July.

Information came from high sources today that the Germans have indicated, since the United States showed a willingness to cooperate with France, that they are prepared to accept the nomination of a permanent Franco-German commission to facilitate understanding on trade relations.

BRITISH M. P.'S WOULD ADJOURN FOR FOUR MONTHS

Conditional Arrangements
for Early Recess Until
February Discussed in
Parliament Lobbies.

BANKING CONTROL AS A LABOR ISSUE

Possibility of General Election
Foremost Topic; No
Borrowing to Meet Dole
—Market Steady.

By the Associated Press.
LONDON, Sept. 24.—Conditional arrangements whereby Parliament would adjourn within a fortnight and not reconvene until February were discussed today in the lobbies of the House of Commons.

Such an eventuality was subject, however, to the possibility of a general election, which continued to be the foremost political topic.

Assuming an election to be virtually certain, the Daily Herald said the impending Labor party conference would be asked to make Government control of banks and finance the spearhead of their election policy and hostility toward a protective tariff one of the main planks in their platform.

The Herald, declaring that Labor would sweep the country in the event of election, denounced the Conservatives for driving Prime Minister MacDonald into a "humiliating position of subservient leading them in a tariff election" and referred to him as the "prisoner Premier of the Tories."

Liberals Divided on Election.
The Liberals appear to be badly divided on the election question, and David Lloyd George is said to be annoyed at those members who are willing to support an election on a tariff policy. Fifty of the 58 Liberal members of Parliament discussed the matter in a meeting yesterday but were unable to agree.

The determination of the Government not to borrow to meet unemployment insurance payments and other charges was revealed today in a supplementary estimate for a total of \$20,700,000 (about \$102,500,000). It calls for \$13,700,000 to be paid out of the exchequer for the dole. The remainder will be applied to the fund and will be repayable out of the future income of the fund.

London Stock Exchange.
With most of the members smiling, trading on the London Stock Exchange opened today in an atmosphere of confidence and the market generally was called steady. A number of buying orders had come in for oil, oil, oil, rubbers and gold mining shares, all of which advanced over yesterday. Gilt-edged stocks did not maintain yesterday's close in all cases owing to some selling orders.

Austin Motors was a firm feature on the strength of its dividend announcement. Leading trans-Atlantic lines in sympathy with Wall street moved more than a point higher. Following the easing of sterling, exchange in New York and other centers yesterday, rates on the exchange market moved against London. New York cables were quoted unofficially at \$2.37 to \$2.44 against \$2.40 yesterday. Paris 100.25 francs against 104 francs, Brussels 25.50 belgas against 29.30 belgas, and Amsterdam 9.68 guilders against 10.25 guilders.

Demonstrations Continue.
Demonstrations by unemployed and by civil servants protesting against reductions in the dole and pay are continuing in various parts of the country.

At Glasgow yesterday police reserves were called out as 50,000 persons marched in a demonstration against the dole reduction. The local magistrate was burned in effigy, but there were no arrests.

At Liverpool police broke up a parade by 6000 persons without serious disorder, and at Birmingham 6000 paraded.

Rumors that Montagu Norman, governor of the Bank of England, would resign today, but it was said at the bank that nothing was known there of such reports. Norman, who returned to London from Canada yesterday, was at his desk in the bank today.

Pound Breaks Through \$4 Level in New York Trading.

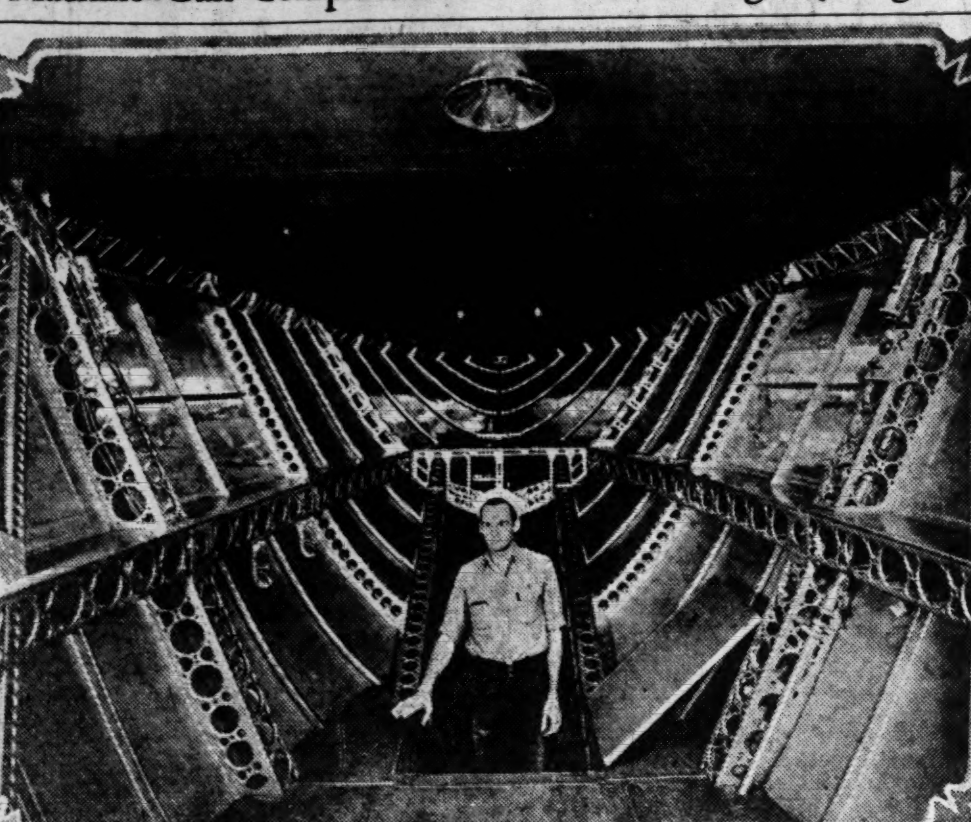

NEW YORK, Sept. 24.—The British pound broke through the \$4 level to \$3.90 at the opening of trading in the foreign exchange market today. The quotation for cable transfers represented an overnight drop of 21 cents and the lowest at which actual dealings have been transacted since Britain suspended gold payments.

Bankers said that sterling continued to move erratically and that there were bids on both sides of the \$3.90 figure, with one as low as \$3.88.

Swedish Bank Rate to Be Increased to 4 Per Cent.

STOCKHOLM, Sweden, Sept. 24.—The Swedish bank rate will be increased from 3 to 4 per cent. effective tomorrow. Felix Hamrin, Minister of Finance, in an interview today, said the country's fi-

Machine-Gun Compartment in World's Largest Dirigible

BOARD the United States Navy's flying battleship, the Akron, which successfully made its first flight from its hangar at Akron, O., yesterday. Photograph shows a machine-gun compartment. A member of the crew is shown on the gangway leading to the control car.

Financial position was as sound as any in Europe, that there had been no proposal to abolish the gold standard for the kron and such a step had not been discussed by the Government. It will be necessary to reduce expenses, but the Government hopes to avoid the stern measures adopted by some other countries to balance their budgets. Sweden ended the first half of the budget year in July with a surplus, he said. The total national debt is under \$506,000,000 and the Government's assets considerably over \$1,080,000,000.

Italy Stops Rumor of Lira Stabilization Change.
By the Associated Press.
WASHINGTON, Sept. 24.—The Italian Government has informed its Embassy it has no intention of changing the stabilization point of \$5.26 to the lira. Ambassador de Martino said he had received advice from Premier Mussolini to this effect, and added:

"This should set at rest all rumors that the lira stabilization point or its gold standard might be changed."

Financial Transactions in Rumania on Basis of Francs.
By the Associated Press.
BUCHAREST, Rumania, Sept. 24.—As a result of the British financial crisis, all business transactions in Rumania are being effected on a basis of French francs and grain is being traded at Rumanian ports on a basis of Dutch guilders or francs.

Run on Banks in Belgrade, Jugoslavia, Met So Far.

By the Associated Press.
BELGRADE, Jugoslavia, Sept. 24.—The British financial crisis has been reflected here in a run on banks which has been met so far with the assistance of the National Bank.

General Rise in All Stocks on the Paris Bourse.

By the Associated Press.
PARIS, Sept. 24.—Active buying at the opening of the Bourse today caused a general rise in all stocks. Rio went up from 1555 to 1725, Royal Dutch from 1455 to 1540, Suez from 12,900 to 13,800.

By the Associated Press.
BERLIN, Sept. 24.—The Boerse Committee decided yesterday to keep the Stock Exchange closed the rest of the week and not to permit curb trading. The Exchange suspended Monday because of the financial developments in England. The Reichsbank is fixing prices on foreign currencies once daily. The Metal Exchange resumes quotations today.

DENTIST ACCUSED OF MURDER OF WOMAN ON AUTO RIDE

By the Associated Press.
RENO, Nev., Sept. 24.—Dr. Carl P. Andre, a dentist, of Fairmount, W. Va., was formally charged yesterday with the murder of Mrs. Martha Hutchinson, also of Fairmount, who was killed Sept. 12 when she fell or was thrown from Andre's speeding automobile.

Andre has been held on a manslaughter charge, filed soon after the death of Mrs. Hutchinson, a widow. Police quoted him as saying he came to Reno for a divorce and that Mrs. Hutchinson, whom he expected to marry, followed.

After the arrival of the woman here, Andre decided against another marriage, he was reported to have said.

District Attorney M. E. Jopson, in filing the murder charge, said evidence had been gathered indicating Mrs. Hutchinson was dead before she was thrown from the car.

BORAH ASSAILS JAPAN'S INVASION OF MANCHURIA

With 10 Times the Reasons
Alleged She Would Still
Be Violating League Pact,
He Says.

By the Associated Press.
MOSCOW, Idaho, Sept. 24.—Senator William E. Borah of Idaho declared today that if Japan "had 10 times the reasons she alleges for entering Manchuria, she would still be violating international law, the Versailles treaty, League of Nations agreements and the Kellogg pact."

The chairman of the Senate Foreign Relations Committee made this statement at the inauguration of the William E. Borah Foundation for the Outlawry of War, set up at the University of Idaho through a gift from Salmon Levinson of Chicago.

War and Taxes.
He appealed for a revision of European post-war treaties which he said are "poisoning the whole life of Europe," with the result that "Europe arms and arms, and arms still further."

The Idaho Senator addressed a gathering at the University of Idaho inaugurating the \$50,000 "William E. Borah Foundation for the Outlawry of War" established by Salmon O. Levinson, Chicago attorney.

Revelation of the treaties, he said, must come before there can be an end to competition in armaments which "disarranges and demoralizes the economic systems of the nations until today some of the great nations are upon the verge of economic collapse and financial breakdown."

"The world is spending more money for armaments by far than at any time in its history, save in the midst of the World War," he stated, and taxpayers are "paying for this program with their blood."

"While much has been done for peace on paper, the spirit of suspicion on the one hand and hate on the other smolder beneath the surface. Those things which move men to action, their fears and sense of injustice, the division of races and peoples, the breaking up of old boundaries, these things make for armaments."

"I understand perfectly that it is not humanly possible to frame satisfactory treaties just at the close of the great war, but it ought to be possible now."

Problems Which Nurture Hate.
"For nearly 50 years the Alsace-Lorraine problem spread the seeds of hate and nurtured the spirit of vengeance throughout a continent," he said, and warned that "there are at least six Alsace-Lorraine problems now since the war."

"Within the last six months Europe has twice been on the brink of a fearful disaster," said the Senator. "The President led out in the League of Nations, and the United States was willing to forgo some of its cruiser building rights in its belief an arms trade at this time would favor the success of the disarmament conference at Geneva in February."

Stimson made public the statement of Hugh R. Wilson, the American representative, before the third committee of the League assembly. It contended the cruiser level of the United States was "considerably below" London treaty quota. Failure to increase naval strength

PHILIPPINE LEGISLATURE ASKS FOR IMMEDIATE FREEDOM

Unanimously Passes Memorial to Hoover and
Congress Requesting Action—Message
Delivered to Hurley.

By the Associated Press.
MANILA, Sept. 24.—The Insular Legislature today unanimously adopted a resolution memorializing Congress for immediate independence for the Philippines.

The memorial was passed at a joint session of the two houses and was delivered to Secretary of War Patrick J. Hurley, now officially visiting the Philippines, for delivery to Congress and President Hoover.

Expressing the belief that separation was the only solution of the Philippine problem, the memorial said that the "independence of America from the Philippines would seem to be as imperative as the independence of the Philippines from America."

A Thrust at Hurley.
Prior to the adoption of the resolution, acting Senate President Sergio Osmeña addressed the session in a speech which many interpreted as a direct refusal of Filipino leaders to accept the statement of Secretary Hurley that he was trying to work out arrangements whereby the two peoples could live happily together.

"We are not seeking reforms or changes in our government," Osmeña said. "We are not interested in new government formulas. Autonomy is what our people want. The desire now is for independence. We are allowed to live a life of their own choosing and directing their own destiny and to establish less service . . . but what will 1932 bring if fundamental changes are not brought about? If the treaties are to remain unrevoked, if reparations are to remain unadjusted, if armaments are to increase, how can the people possibly rescue themselves from this fearful thrall?"

"It is time for frank discussion—and, still more important, it is time for action."

U. S. Makes Reservations in Agreeing to Naval Holiday.
By the Associated Press.
WASHINGTON, Sept. 24.—The United States is ready to forego some cruiser rights under the London treaty to aid world disarmament. Construction of 11 destroyers on which bids were opened recently is considered necessary, however, to replace obsolete types and help relieve unemployment.

Secretary Stimson, indicating acceptance in principle of Italy's proposal now before the League of Nations for a year's naval holiday, specifically accepted the destroyers from any such agreement.

Because of America's interest in disarmament, he said, the United States was willing to forgo some of its cruiser building rights in its belief an arms trade at this time would favor the success of the disarmament conference at Geneva in February.

Stimson made public the statement of Hugh R. Wilson, the American representative, before the third committee of the League assembly. It contended the cruiser level of the United States was "considerably below" London treaty quota. Failure to increase naval strength

for a year, Wilson said, would cause "embarrassment and a dislocation of construction plans."

He held approval of any particular form of agreement would be impossible pending a complete survey of the naval factors of the problem. Suggestions relating to air and land disarmament, he said, were practicable and of a nature acceptable to America.

Italy's proposal, the American Minister contended, would not apply to seven cruisers, three submarines and an aircraft carrier now being built by the United States.

Construction schedules of the 10,000-ton, eight-inch gun cruisers, to cost \$17,000,000 each, call for completion of three in 1932 and two each in 1933 and 1934. One of the submarines is to be completed in 1932 and the others in 1933, each costing \$5,000,000. The aircraft carrier is to be completed in 1934 at cost of \$15,000,000.

French Expert Calls One-Year Armament Truce Impracticable.
By the Associated Press.
GENEVA, Sept. 24.—Rene Massigli, French naval expert, told the League of Nations Disarmament Committee today that the one-year truce in armaments proposed by Italy was impracticable and impossible of immediate realization.

Stimson made public the statement of Hugh R. Wilson, the American representative, before the third committee of the League assembly. It contended the cruiser level of the United States was "considerably below" London treaty quota. Failure to increase naval strength

EX-INSTRUCTOR AT ARIZONA FREED OF KILLING HUSBAND

Mate's Alleged Attempt to Poison Her Is Basis of Defense of Miss Louise Marshall.

By the Associated Press.
NOGALES, Ariz., Sept. 24.—Mrs. Louise Foucar Marshall, 36 years old, who came from Boston 36 years ago to become an instructor at the University of Arizona, was freed yesterday of a charge of killing her husband and former pupil, Thomas K. Marshall, 69.

Marshall was fatally shot as he lay in bed several months ago. Mrs. Marshall had been accused of poisoning her husband and former pupil, Thomas K. Marshall, 69, before acquitting Mrs. Marshall, who is a semi-invalid.

A story of jealousy over a former housekeeper and a fear of Mrs. Marshall that her husband had attempted to poison her, pleaded together on the witness stand and in attorney's arguments, Mrs. Harriet Seymour, discharged jury deliberated only 24 minutes before acquitting Mrs. Marshall, who is a semi-invalid.

ACCIDENT VERDICT IN FATAL CRASH AT GRADE CROSSING

Police Sergeant Testifies
Watchman Told Him He
Did Not See Truck Ap-
proaching the Railroad.

HAD BROKEN SIGNAL LANTERN IN HAND

Fireman on Wabash Engine
Asserts He Tried to Warn
Driver Killed at Hamilton
Ave.

The collision between a Wabash train and a truck of the Quality Dairy Co. at the Hamilton avenue crossing yesterday morning, in which Elmer David, 23-year-old driver of the truck, was killed, was held to be accidental at thequest today.

Police Sergeant Oliver Sopp, who arrived soon after the collision, testified he saw the watchman, Thomas Woods, standing 25 feet away from the crossing, with a broken signal lantern in his hand. He said that Woods told him that he had been approached and did not see the truck coming south on Hamilton avenue.

The engineer, Al D. Wells of Moberly, Mo., testified he was on the engine of the train where the watchman was supposed to be and did not see him.

The Police Sergeant said he found Woods in a highly excited state, and made him give a clear statement of what happened. Woods stated to him that he did not see the accident. The fireman, on the side of the train from which the truck approached, said he attempted to attract the driver's attention. Woods did not testify on advice of counsel.

The Hamilton avenue crossing is not well lighted, Sergeant Sopp testified, and is not easily visible at the time the accident occurred, shortly before 4 o'clock.

David lived at 1459 Engelholm avenue, Wellston, and is survived by his widow and three children. The funeral will be held from Clark's funeral establishment, 1125 Holladay avenue, at 2:30 o'clock Saturday afternoon, to Chatham Gospel Church. Burial will be in Valhalla Cemetery.

"LIN BAL" (LINDBERGH) STIRS
HARDLY A RIPLE IN NANKING

Hotel Keeper Inquires Whether Flyer
Is Chinese or Foreigner; Flyer
Continues Flood Relief Work.

By the Associated Press.
NANKING, Sept. 24.—Unmolested by reception committees and curious crowds, Col. Charles A. Lindbergh has plunged heartily into the volunteer flood relief job. Both he and Mrs. Lindbergh find Nanking's lack of interest in their fame refreshing.

The name given Lindbergh by the Chinese is "Lin Bai," literally meaning "white woods." Outside the small official circle, few of Nanking's 500,000 inhabitants know who the Lindberghs are or that they are here.

On the day of their arrival the manager of the largest hotel on the river front asked the reason for the excitement, and, upon being informed, wanted to know whether this Lin Bai was a Chinese or a foreigner.

Lindbergh will make an experimental flight Saturday to determine the feasibility of carrying doctors to and from the inundated areas in Northern Kiangsu province.

The Bennett company, a retail company operated by a man named Bennett, who had been in business since 1900, and had the most successful of dealers, when it failed about \$100 in its debt.

"That was sort of creditors, wasn't it?" Coles remarked.

The Bennett company's creditors \$65,000, of which \$122,000, the firm some Florida \$50,000 in accounts payable less than the trustee stated, company formerly in business annually man said.

WIFE FREED IN
TUSCUMBIA, N. Y.

Mrs. Georgia R. Tuscumbia, who was accused of the murder of her husband, last July 2 at the Miller County Jail, was freed yesterday following a verdict of not guilty.

The defense attorneys, who had been in the courtroom since the trial began, were shot by the sheriff's men.

Richardson killed his prosecution attempt. He was shot by the sheriff's men.

Mate's Alleged Attempt to Poison Her Is Basis of Defense
By the Associated Press.
NOGALES, Ariz., Sept. 24.—Mrs. Louise Foucar Marshall, 77 years old, who came from Boston 20 years ago to become an instructor at the University of Arizona, was freed yesterday of a charge of killing her husband and former pupil, Thomas K. Marshall, 69, jury deliberated only 34 minutes before acquitting Mrs. Marshall, who is a semi-invalid.

A story of jealousy over a former housekeeper and a fear of Mrs. Marshall that her husband had attempted to poison her, was placed together on the witness stand and in attorney's arguments. Mrs. Harriet Seymour, discharged housekeeper, testified she and Marshall did not have an affair. Physicians called by the defense told of having found evidence of poison in Mrs. Marshall's system.

REVIVAL OF SILVER ISSUE SEEN BY WALSH OF MONTANA

Hopes England Can Be Induced to Add White Metal to Proposed World Parity.
By the Associated Press.
WASHINGTON, Sept. 24.—Revival of the silver issue which made the presidential campaign in 1896 one of the bitterest in American history is predicted by Senator Walsh (Dem.), Montana. Walsh said the bimetallic question was forcing itself upon the world as a result of the maldistribution and shortage of gold and the "destruction of the purchasing power of a large part of the Orient and Latin America."

The Montana Senator said he was deeply interested in reports that Great Britain desired an international conference on the gold problem and said he hoped England could be induced to consider silver as well as gold.

\$1,000,000 LEFT TO COLLEGE
F. C. Austin, Chicago, Gives Estate to Northwestern U.
By the Associated Press.
CHICAGO, Sept. 24.—The late Frederick C. Austin, philanthropist and financier, left an estate of about \$1,000,000, all of which he bequeathed to Northwestern University. It was disclosed yesterday following approval of an inventory by Nuncio J. Bonnell, assistant to Probate Judge Henry Horner. Mr. Austin died last June 11 at Pasadena, Cal., at the age of 75 years.

His will specified that the money be used for scholarships to aid business students.

**DISMISSES VAGRANCY CHARGES
AGAINST 127 HANDBOOK MEN**
City Judge Incline Informed by Police That There Is No Gam-
bling Evidence.

Vagrancy charges against 127 men arrested recently in the police campaign against handbook shops were dismissed by City Judge William Foster today when police admitted they had no evidence of gambling. Two cases in which, police said, such evidence was being conducted by the Circuit Attorney's office, were continued until Nov. 19. City Judge Foster continued all the 41 cases in his court until the same date. None of the defendants appeared, their attorneys stating they understood the cases were to be continued.

Navy Secretary in Fast Flight.
By the Associated Press.
WASHINGTON, Sept. 24.—Secretary of the Navy Adams today was treated to some real speed by David S. Ingalls, Assistant Secretary of the Navy for Operations, flying a navy combat plane, in a few minutes from Akron, O., to Washington in one hour 24 minutes, an average speed of 204 miles an hour. Ingalls piloted Adams to Akron yesterday for the flight of the dirigible "Akron."

TWO YOUTHS WHO KILLED POLICEMAN IN DENVER TO HANG

Albert Carlson, 20, of Madison County, Ill., Collapses in Mother's Arms When He Hears Verdict.

Special to the Post-Dispatch.
DENVER, Colo., Sept. 24.—Albert Carlson, 20 years old, who lives near Collinsville, Ill., and a companion, were convicted of murder last night by a jury which fixed their punishment at death by hanging for the murder of Patrolman William Keating on Aug. 31, when he surprised them breaking into the safe of a Denver automobile agency.

When the verdict was read, Carlson fell weeping into the arms of his mother, Mrs. Anna Goetz, with whom he resided until recently on the Collinsville road in Madison County.

Carlson's companion, William Piskoty, 23, of Gary, Ind., accepted the verdict calmly, but Carlson collapsed and had to be carried from the courtroom by deputy sheriffs.

Carlson left his home four months ago after a quarrel with his stepfather, an automobile mechanic, which Carlson and his companion abandoned near the scene of the shooting, gave clues which led to their capture.

Keating died the day after he was wounded, Carlson and Piskoty later confessing the crime to police. Police said they also admitted 15 burglaries and safe robberies in Colorado and New Mexico.

John Markham, 22, of Grand City, Ill., confessed slaying of Stanley M. Moore, a student, was taken from the Denver jail today to Holyoke, Colo., where he will be arraigned today on a charge of murder.

Markham was heavily manacled and escorted by a guard of Deputy Sheriff's armed with sawed-off shotguns. Markham admitted slaying the student near Holyoke on Sept. 7, after he had given Moore, a hitch-hiker, a lift, and Moore learned that Markham had stolen the car he was driving in Kansas City.

Markham escaped from St. Mary's Hospital in East St. Louis on May 23, where he was a police prisoner, after having wounded a filling station employee in a attempted robbery in East St. Louis. Markham was wounded twice when the attendant fired.

CHARGE OF JURY TAMPERING
IN \$1,000,000 LIQUOR CASE
U. S. Judge in Philadelphia Announces Mistrial and Orders Arrest of Man Accused.

PHILADELPHIA, Sept. 24.—The trial of eight men charged by the Government with conspiracy to divert \$1,000,000 worth of alcohol into bootleg channels, which began here Monday, came to a sudden end today when it was alleged an attempt had been made to tamper with one of three women members on the jury.

Federal Judge William H. Kirkpatrick declared a mistrial and ordered the arrest of Lawrence Ward of this city, who was pointed out by the woman juror as the man who first approached her in the corridor of the Federal building yesterday afternoon. The juror is Mrs. George Merkel of Minersville, Pa.

It was the second time in a year that the eight defendants, including two former Federal prohibition agents, officers of the Glenwood distilling Co., and former Pennsylvania railroad employees, had been placed on trial. The first trial ended in a disagreement of the jury after it had been out 49 hours.

The court told the jurors and attorneys an attempt had been made to influence one of the jurors and that he had found that the report of the incident made by Mrs. Merkel was substantially correct.

WILL FOUND IN NOTEBOOK
UNDER SEAT OF MOTOR TRUCK
Maryland Man, Killed When Home Is Destroyed, Leaves Body to Medical College.

CAMBRIDGE, Md., Sept. 24.—Scribbled in a notebook, found tucked under the seat of a motor truck, the will of James Gousand, 58 years old, burned to death in the destruction of his home, near here, Sunday, was found yesterday. The will was discovered about the same time a Coroner's jury found Gousand had met his death from accidental causes.

"No one will be interested in my death and notify no one," the will said. "I will my body to the nearest medical college interested and desire to be cremated. I give all my property to my daughter, Lucille."

Why Colorado Court Held Ballistics Expert Wrong

Supreme Judges, Unable to Discern Markings He Described to Jury, Free Defendant in Murder Case.

Special to the Post-Dispatch.
DENVER, Colo., Sept. 24.—Judges of the Colorado Supreme Court examined, under a magnifying glass, the bullets with which Mrs. William Matthews was killed, before they reached their verdict freeing her husband, who had been convicted of her murder on the testimony of a ballistics expert.

Matthews, a bank watchman in Walsenburg, Colo., presented an alibi which the Supreme Court declared "perfect." This led the court to question the conclusiveness of the testimony, given by an expert witness, that the three bullets taken from Mrs. Matthews' body had been fired from Matthews' revolver.

The judges, scrutinizing the bullets, were unable to see on them the markings which the expert described. The court, after reviewing the circumstances of the killing and the alibi testimony of three witnesses, says: "Aside from mere routine proof, the case rested solely upon the testimony of a ballistics expert, who had examined the bullets taken from the body of the deceased, compared them with bullets which he fired from defendant's revolver and gave it as his opinion that the murder was committed with that weapon."

Calls Alibi "Perfect."
"If the evidence of the expert is true, defendant's wife was killed with defendant's gun, and since, during the time when the murder must have been committed, the gun was in his possession, his guilt is established. Against this testimony must be set defendant's long residence in the community, his unquestioned character, absence of motive and a perfect alibi. Under such circumstances, the testimony of this expert must be subjected to the most careful scrutiny."

"If veracity and credibility were the preponderating elements in that scrutiny, a well-established rule would prevent our interfering with the conclusion of the jury who saw and heard the witness but such is not the situation presented. This witness explained to the court how such guns were made and how the bullets fired from them were often marked by the grooves in the rifling as they motion and discharge him."

BILL TO BAR BOOKMAKERS**
Fixes License at \$300 a Day With Heavy Fines Provided.

An ordinance requiring custodians of bets to pay a license fee of \$300 a day was adopted last night by the Richmond Heights Board of Aldermen. The city had no ordinance making it illegal to act as custodian of a bet, but the license fee is obviously prohibitive. It was established by the request of the Police Department.

The ordinance provides for fines of from \$100 to \$500 for conviction and additional penalties of the same amount for each day the fine is not paid after conviction.

KINGSFORD-SMITH ON FLIGHT
Starts Attempt to Break Australia-to-England Record.

BATAVIA, Java, Sept. 24.—Wing Commander Charles Kingsford-Smith, who left Wyndham, Australia, for England today in an attempt to establish a new flight record, arrived at Cherbon, Dutch East Indies, this afternoon. He plans to fly to Victoria Point, Burma, tomorrow, in his Southern Cross Jr. The record of eight days, 21 hours, 25 minutes is now held by C. A. Mollison, who broke C. W. A. Scott's time by more than two days. Kingsford-Smith first set the mark in 1929 at 13 1/2 days.

WOMAN FOUND SHOT IN HOME
Wife of Insurance Man Wounded Three Times.

Mrs. Carl M. Horton, 53 years old, wife of an insurance agent living at 538 North Thirteenth street, East St. Louis, was taken to Christian Welfare Hospital today with three bullet wounds of the abdomen.

She was found in her room on the second floor of the house, a little after 11 o'clock, when Mrs. John Brooks, from whom she and her husband rent rooms, heard three shots, fired about a minute apart. Mrs. Brooks found Mrs. Horton seated in a chair with a small caliber pistol at her side. She told police that Mrs. Horton had been worried over financial difficulties.

One section of the proposed matrimonial canon, reported by committee, remains for discussion. It concerns the remarriage of divorced persons. It allows remarriage of a person who is the innocent party to a divorce granted on grounds of adultery. The same provision is made under existing laws.

Deputies Accept, Then Defeat Proposal for Certificates of Physical and Mental Condition.

By the Associated Press.
DENVER, Sept. 24.—The house of deputies of the Protestant Episcopal Church yesterday adopted and later rescinded a provision requiring medical certificates before marriage, approved establishment of a marital ecclesiastical court in each diocese and outlined eight impediments to matrimony.

Approval of the amendment to the church law requiring both parties to a marriage to present certificates stating each was free from mental and physical impediments to union, was a surprise. The vote was 240 for the amendment and 215 against. When it was announced the vote was so close the deputies refused to reconsider. Only a few dissenting voices were heard on the second vote which defeated the amendment.

Establishment of an ecclesiastical court in each diocese to consider marital cases was approved, proponents overcoming opposition led by Roswell Page, lay deputy from Virginia. Page and his followers also opposed, unsuccessfully, a provision for physical and private inspection on marriage.

The deputies also approved a section which requires that "if one party to a marriage so grievously offend the other that security or permanence of the home is imperiled it shall be the duty of the offended party, before instituting legal proceedings of any nature, to lay the matter before a minister of the church; and it shall be the duty of such minister to labor that the parties may be reconciled."

Nine impediments to marriage listed in a proposed canon were adopted. One section of the proposed matrimonial canon, reported by committee, remains for discussion. It concerns the remarriage of divorced persons. It allows remarriage of a person who is the innocent party to a divorce granted on grounds of adultery. The same provision is made under existing laws.

The deputies approved a section which reads "that a person whose former marriage has been annulled or dissolved by a civil court, and annulled by an ecclesiastical court, may be married by a minister of this church."

NEGRO ROBBER GETS 10-YEAR TERM
Sherman Olive, a Negro, 2923 Easton avenue, was sentenced to 10 years in the penitentiary today on his plea of guilty of robbery with a deadly weapon, a violation of the Henry law. Olive, who has two previous convictions for felony against him, was also charged as a habitual criminal, but this was dismissed on his entering a plea. Last March 9 he and a companion help up Nick Holzinger, a grocer, in the latter's store at 2350 LaSalle street, escaping with \$150.

IRON WORKER KILLED IN FALL
Joseph J. Lahey Working on Building at Twelfth and Carr.
Joseph J. Lahey, 34 years old, an iron worker, 1518 Yale avenue, St. Louis county, died yesterday at Barnes Hospital of injuries suffered Monday when he fell from a scaffold while working on a building at Twelfth and Carr streets.

FORGERY IN CHARITY PLEDGES
Two Arrested in Chicago on Charge of Swindling Business Men.
By the Associated Press.
CHICAGO, Sept. 24.—A new confidence game, in which forged pledge cards presented to business men unable to remember whether they signed them, but who preferred to pay rather than argue about a donation to charity, was uncovered by police today with the arrest of two men.

The police said the two prisoners confessed they had taken thousands of dollars from New York, Detroit and Chicago business men. Names of the accused were given as Joseph Hamilton, 40 years old, of Detroit, and Harvel L. Davis of Chicago. Davis recently came to Chicago from Detroit.

REAL ESTATE MAN KILLED IN CRASH OF AUTOMOBILES

J. A. Pastel, Head of Firm Which Operates Laclede Hotel, Victim in Webster Groves Collision.

By a Post-Dispatch Staff Photographer.
EVETT D. NIX.
UNITED STATES marshal in old Oklahoma, who routed two robbers in his downtown broker's office today. He fired an old revolver which he seized from a member of the notorious Dalton gang.

Jacob A. Pastel, president of the Laclede Realty Co., which operates the Laclede Hotel, 520 Chestnut street, was killed this morning in a collision between two automobiles at Kirkham avenue and Rock Hill road, Webster Groves.

Pastel, accompanied by his brother-in-law, David Margat, 24 years old, left his home, 319 Euclid avenue, Webster Groves, shortly before 9 o'clock to take his six-year-old son, Paul, to school.

The machine collided with another car driven by Robert Lee Morton Jr., manager of the radio department of an electrical goods company, living at 795 West Kirkham avenue, who was eastbound in Kirkham avenue.

Pastel's car was upset and he was thrown to the pavement, striking his head and suffering a fractured skull from which he died on the way to Barnes Hospital. Margat and Paul Pastel suffered minor injuries.

Your Human Horseshoe

The lower intestine is about five feet long and shaped like an inverted U—thus (1). It is lined with sacs, pockets and folds. It is the waste canal of the body. Once medical science paid little attention to it; now it is recognized as the vital source of many diseases. The headaches you get, digestive distress, sleeplessness and general debility are aggravated by improper functions of this "horseshoe"—many of these graver afflictions such as hardened arteries, high blood pressure, rheumatism, arthritis, sciatica and liver and kidney disorders are made worse. Due to our soft foods, lack of exercise and highly artificial civilization, the passage of digestive waste through your "horseshoe" is entirely too slow. The powerful intestinal muscles have become flabby, lazy and weak. Waste fills the sacs and pockets—stays there. Gases, germs and poisons form in abundance. The blood vessels in the intestinal walls absorb the germs and poisons—are doing it constantly. Carrying them to all tissues and organs. Impairing their efficiency and power—dragging you down, destroying your energy. That is why you feel so low and wretched. Of course the obvious way to get a new physical start in life—and to keep it—is to cleanse the lower intestine.

Every sac and pocket. An enema won't do it—its water reaches only the first bend. Internal Bathing with the J. B. L. Cascade will—It floods the entire length, dissolves everything in it; new it is recognized as the vital source of many diseases. The headaches you get, digestive distress, sleeplessness and general debility are aggravated by improper functions of this "horseshoe"—many of these graver afflictions such as hardened arteries, high blood pressure, rheumatism, arthritis, sciatica and liver and kidney disorders are made worse.

The effect of a single J. B. L. Cascade Internal Bath is truly magical. Taken just before retiring you sleep like a child. You rise feeling fine as a silk. Your mind is keen as a razor's edge. You have rest for the day, energy for the task. Simply because you have freed your body of those intestinal poisons and germs.

At any of our stores you can procure FREE a booklet entitled, "Why We Should Bathe Internally." It describes the J. B. L. Cascade principle in detail. It reveals how Internal Bathing has brought glowing health, clear complexion and abundant vitality to more than 1,000,000 men and women. See what it will do for you. Get your copy today—and ask to see the Cascade.

A. F. L. President Condemns Steel Wage Cuts, Declares the Industry Violated Its Promise to Hoover

Green Says Employees Will Have \$25,000,000 Less to Spend—Recalls Big Earnings of Corporations.

By the Associated Press.
WASHINGTON, Sept. 24.—Following is the statement issued by William Green, president of the American Federation of Labor, condemning the wage reduction announced in the steel industry:

"The reduction in wages imposed and literally forced upon the employees of the United States Steel Corporation and by other steel corporations, is morally wrong and economically unsound. No greater blow than this has yet been struck against the forces which have been and now are serving to bring about a return to prosperity.

"The United States Steel Corporation violated a solemn promise which it made to the people of the nation when it assured the President of the United States, along with a number of other large employing interests, that during this distressing period of unemployment wages would be maintained. This great corporation has now broken its promise in sharp contrast to its action, labor has discharged its obligation and maintained the pledge which it made to the President.

"It is stated that this 10 per cent reduction forced upon the employees of the United States Steel Corporation will mean a saving to this great financial concern of \$25,000,000. That means that the employees of the United States Steel Corporation will have \$25,000,000 less to spend. They will buy \$25,000,000 less goods. Their purchasing power will be \$25,000,000 less. This will reduce the volume of sales for manufactured goods in an amount corresponding to the reduction in wages which the employees of the United States Steel Corporation are forced to accept.

"Can reasonable-minded people believe that a return to prosperity will be accelerated through a reduction of the buying power of one section of the masses of the people amounting to \$25,000,000?

Repetition of Old Story.
"This action of the United States Steel Corporation seems to be a repetition of the old story; employers of labor know one thing and that is to reduce wages when economic depressions come upon them. That seems to be their solution for unemployment and they seem to regard it as their remedy for economic distress.

"While reading the announcement of the United States Steel Corporation that it proposed to force a reduction in wages of 10 per cent beginning Oct. 1, one is reminded of the fact that in June, 1927, not so very long ago, this corporation declared a 40 per cent stock dividend.

"It also paid cash dividends amounting to 160½ per cent between April 1, 1931, and Dec. 31, 1930.

"While paying these stock dividends and these huge cash dividends it created a huge reserve fund out of which dividends have been paid thus far during the continued period of unemployment which now exists.

Generous With Executives.
"It seems to be the policy of this great corporation, as it is of many others, to distribute earnings most generously among its stockholders and its high paid chief executives during periods of prosperity, and reduce the wages of its employees during periods of adversity.

"Why did it not share with its employees in the distribution of the sum represented in this large stock dividend and cash dividends in the shape of increased wages when conditions were prosperous?

"The Bethlehem Steel Corporation followed the announcement of the United States Steel Corporation by declaring that a reduction in wages equal to the amount imposed by the United States Steel Corporation will be forced upon the employees of the Bethlehem Steel Corporation.

Recalls Big Bonuses.
"This is the corporation which, according to the court records made public during the hearing of the merger proposal of the Youngstown Sheet & Tube Co. with the Bethlehem Steel Corporation, paid to its corporation officers bonuses amounting to \$25,150,000 during the period between the years 1918 and 1930.

"The salary and bonus of the president of the Bethlehem Steel Corporation averaged \$326,000 annually.

"Besides, the records show that this corporation declared a dividend amounting to 200 per cent upon Class B common stock in February, 1917, and dividends to the stockholders amounting to \$121,000,000 in the period between 1918 and 1930.

American standard of living. If these corporations became the beneficiaries of high protective tariff in order to protect wages, then it seems reasonable that since they accepted this factor and reduced wages, the tariff schedule should be reduced and the special favors accorded them withdrawn.

"It is unfair to expect that the American people will throw around these specially favored industries a wall of tariff protection when they behold these great corporations engaged in a policy of reducing wages, forcing down the American standard of living, compelling working people to sacrifice still further the necessities of life.

Broke Solemn Pledge.
"The United States Steel Corporation and these other corporations which have announced reductions in wages, have subjected themselves to the charge that wages would be maintained. That through the imposition of a reduction in wages upon their employees they have broken a solemn pledge which they made the President of the United States to maintain wages, and by this action they have contributed to the develop-

ment of social unrest and industrial discontent.
"As one American citizen having at heart the interests of the nation, concerned over the preservation of our free institutions, and as a spokesman of the organized workers of the United States and Canada, I protest most vigorously against what I regard as the indefensible action of these steel corporations in their determination to enforce a 10 per cent reduction in wages upon their employees.

"The press reports Assistant Secretary Julius Klein of the Department of Commerce as having said that 'there will be hell to pay throughout the United States in the event of a general wage reduction.' I am not sure that Assistant Secretary Klein has been correctly quoted, but it is my honest, sincere opinion, arrived at after careful consideration, that such a course would be disastrous to the nation. DRUG STORE ROBBED; TWO ADMIT HOLDUP.

Armed Men Take \$365 From
Woman Owner of
Restaurant.

Two men, arrested at Alton
early today when a loaded revolver
was found in their machine, ad-
mitted, police report, that they
held up the drug store of H. L.
Ritchey, 8546 St. Charles road, St.
Louis County, several hours earlier,
taking about \$75.

J. D. Boyle, clerk, reported that
two robbers tied him with cord
and fled in an automobile after
taking the money. The men were
driving an automobile bearing
Iowa license plates when arrested,
and confessed, police say, that
they stole the machine in Des
Moines last week. They described
themselves as John O'Brien, 45
years old, of New York City, and
Charles Osterstock, Pittsburg, Pa.
They are held for county authori-
ties.

Mrs. Ida Birch, proprietor of a
restaurant at Edmundson avenue
and Natural Bridge road, St. Louis
County, was robbed of \$155 last
night by two men armed with re-
volvers, who held her up in the
restaurant and fled in an automo-
bile.

Mrs. Blanche Hunt, 1148 Estelle
avenue, reported she was robbed
of \$40 yesterday by a man who
seized her purse while she was
walking on Halls Ferry road.

William Cassidy, 6505 Palm-
mer boulevard, an insurance collector,
was robbed of \$12 by two Negroes,
who held him up in a yard in the
rear of 1918 Wash street yester-
day.

Burglars stole jewelry valued at
\$300 from the home of Fred Leck-
ler, 3231 Dakota street, last night.
A truck loaded with milk was
stolen early today from a parking
place near a restaurant at 39
South Boyle avenue, where the
driver, Martin Flavin, was having
breakfast. The truck is the property
of the Highland Farm Dairy
Co., 4321 Chouteau avenue.

SMOKING BY WOMEN BARRED IN NORTHWESTERN U. BUILDINGS

Use of Cigarettes Permitted Else-
where, Even in Front of
Sorority Houses.
By the Associated Press.
CHICAGO, Sept. 24.—Northwest-
ern University women students may
smoke cigarettes, but not in the
campus buildings. "They may sit
or stand on sorority house steps
and smoke," said Mrs. Edson Pow-
ler, president of the Quadrangle
Association, "but they will not be
permitted to smoke inside. It's too
easy for nonsmokers to get the
habit in smoke-filled living quar-
ters."

Miss Jean Van Evara, woman's
editor of the Daily Northwestern,
announced she and her associates
would continue their campaign for
"equal smoking rights with men,"
who have smoking rooms in several
buildings.

LABOR FEDERATION LEADER CONDEMS STEEL WAGE CUT

Continued From Preceding Page.
after deliberate and calm consid-
eration, that whether this predic-
tion of Assistant Secretary Klein
may or may not come true, the
fact is that it ought to be a logical
outcome of the wage-cutting pol-
icies pursued by the highly pro-
tected employing corporations of
the nation.

Cotton Goods Firm Announces 10 Per Cent Pay Cut.

By the Associated Press.
BIDDEFORD, Me., Sept. 24.—
The Pepperell Manufacturing Co.,
makers of cotton goods, has an-
nounced a reduction of 10 per cent
in salaries and wages, and a drop
from 6 to 4 per cent on the com-
mon stock dividend. The company,
at capacity, employs 1500 men and
women. About 2600 persons are
on the payroll now. The company
said it hoped to be able to provide
steady employment on nearly full
time employment through the re-
ductions.

FAMILY ROW RESULTS IN SUIT FOR \$20,000

A. F. Steinlage Charges Father
and Brothers With Beat-
ing Him.

Alleging that his father and his two brothers assaulted him with fists and clubs, without provoca-
tion, at the Quality Dairy Co., a
family business, Arnold F. Stein-
lage, secretary of the company,
filed suit for \$20,000 damages in
Circuit Court at Clayton today.
The defendants, none of whom
could be reached, are John G.
Steinlage, the father, president of
the company, and L. C. and Paul
Steinlage, the brothers.
The plaintiff alleges that Sept.
14 the defendants beat him, chocked him, knocked him from a
five-foot platform and stood on
him, causing injuries to his spine
and fracture of his ribs, which
have confined him to his bed.
His attorney, John Nolan, said
the suit resulted from difficulties
"over the affairs of the company."
Last Friday a suit for a receiver
for the company was filed in Cir-
cuit Court in St. Louis by Frank
H. Boerger, a stockholder. He al-
leged that constant quarreling be-
tween the father and son inter-
fered with the company's busi-
ness.

The company is at 4620 West
Florissant avenue. It has out-
standing capital stock of \$108,100
and was incorporated in Missouri
in 1913.

Arnold Steinlage alleges that be-
cause his right leg has been ampu-
tated below the knee he was un-
able to defend himself against the
attack.

**CHICAGO BANK REPORTS
EMBEZZLER GOT \$3,666,929**
Prosecutor Says Case Against \$75-
a-Week Employee "Is Develop-
ing All the Time."

By the Associated Press
CHICAGO, Sept. 24.—The State's
Attorney's office has the official
report of the Continental Illinois
Bank and Trust Co. concerning the
embezzlement of more than \$3-
600,000 by Walter E. Wolf, \$75-a-
week manager of its coupon depart-
ment. The report, prepared by As-
sistant State's Attorney Henry E.
Ayers and contained the findings of
a private investigation which dis-
closed \$3,666,929 as the amount of
bonds and other securities removed
from the bank and not returned by
Wolf.

Ayers said the report was so
voluminous and detailed that he
would request that a special audi-
tor be assigned to check it. Ayers
said the case "is developing all the
time" and that he still receives "all
sorts of new information" concern-
ing the bank employee's manipula-
tions which extended over 12 years
and involved millions of dollars in
stock and grain market transactions
with securities owned by the bank's
customers.
The prosecutor said he was in-
vestigating to determine whether
Wolf had accomplices.

GRAPE CONCENTRATE FIRM INDICTED AT ST. JOSEPH

Accused of Sale of Material Capable of Producing Vicious Liquors.

By the Associated Press.

ST. JOSEPH, Mo., Sept. 24.—The United States District Court here today indicted the Kansas City firm of New York, and its former Kansas City manager, Albert E. Brunetti, were indicted by a Federal grand jury here yesterday for alleged sale and possession of wine and grape concentrate capable of producing vicious liquors.

The defendants will go to trial before Federal Judge Merrill E. Otis in Kansas City Oct. 1. In the event of an adverse decision, defense attorneys plan to appeal to the United States Supreme Court to establish the law on grape concentrate sales.

District Attorney W. L. Vandeventer accused the company and Brunetti of selling grape juice concentrate at various times in Kansas City to Federal prohibition agents. The indictment alleged the concentrate contained more than one-half of 1 per cent of alcohol by volume, and was intoxicating in fact.

RESERVE BANKS HOLD \$5,000,000,000 GOLD

\$2,000,000,000 More Than Required and Nearly Half World's Supply.

By the Associated Press.

WASHINGTON, Sept. 24.—A statement by the governing body of the Federal Reserve system issued today says that member banks hold in their gold reserves about \$2,000,000,000 more than required by law.

The Reserve Board's August review also showed that Great Britain, which temporarily abandoned the gold standard this week, had a net loss of \$67,578,000 in gold from Jan. 1 to the end of July, during which time France imported \$299,935,000 from Great Britain and exported \$192,000 to her neighbor.

The Federal Reserve banks were shown to have held last week nearly one-half of the world's gold supply with a total of more than \$5,000,000,000.

The board reported failures in August of 154 banks with deposits of \$266,022,000, making the number since Jan. 1, 1932 with deposits of \$688,516,000. In the same period of the previous year 609 banks failed with deposits of \$263,025,000.

Four banks with deposits of \$14,336,000 reopened in August, while in eight months of the year 195 banks reopened with deposits of \$117,180,000. In the entire year of 1930 only 147 banks with deposits of \$61,539,000 reopened.

Other Accidents.

Three persons were injured in a collision between a truck and a passenger automobile on the Free Bridge early today. Mrs. Grace Elliott, 2639 Caroline street, suffered an injury to the spine; her husband, Harry, and Mrs. Edna Mansfield, same address, were cut and bruised. They were riding with Charles Frenzel, a clerk, whose machine was struck by a truck driven by Elmer Sheppard, 2823A North Fifteenth street.

Mrs. Mary Toelle, 59, 5015 Rhodes avenue, suffered an injury of the skull when struck by an automobile at 6909 Gravois avenue. Harry Wiggins, Eureka, Mo., was the driver.

Robert Humphrey, 14, 4254 Laclede avenue, suffered a fractured skull when he was struck in front of his home by an automobile driven by Otto Melchior, 2340 South Grand boulevard.

Harold Keithly, a chauffeur, 2233 Warren street, suffered a fractured pelvis when he was run over by an automobile while lying beneath his truck making an adjustment in front of 5836 Delmar boulevard. The automobile was driven by Mrs. Edward Jacobs, 6133 Westminster place.

Mrs. Catherine Steed, 4908 Terry avenue, suffered an injury to the back; Peter Tracy, same address, suffered a fractured skull, and Mrs. Nellie Buckley, 4064 St. Louis avenue, was cut and bruised in a collision between two automobiles at Twenty-third and Carr streets yesterday.

IMMIGRATION OFFICER RESIGNS

Action Follows Arrest of Clerks in His Bureau.

By the Associated Press.

NEW YORK, Sept. 24.—Benjamin P. Day, Immigration Commissioner at Ellis Island, whose office recently has been investigating a re-entry permit racket and a smuggling ring, yesterday announced his resignation. The resignation was accepted.

During Day's vacation several clerks in the re-entry permit bureau at Ellis Island were arrested on charges of providing an alien-smuggling ring with forged permits for the illegal entry of aliens.

SAYS DEMOCRACY PUTS SMALL MEN IN POWER

Dr. N. M. Butler Declares Dicta-
tors Lead in Intelligence,
Character.

By the Associated Press.

NEW YORK, Sept. 24.—Dr.

Nicholas Murray Butler, president
of Columbia University, believes
that democracy has placed midgets
in the seats of the mighty while
dictatorships have placed in power
men of greater intelligence, stronger
character and more courage.

Addressing the student body at
the opening exercises of the uni-
versity yesterday he said that of
the 26 Presidents since James
Madison no more than five or six
represented the best in American
character and intelligence as per-
sonified in the first four chief
executives of the republic.

Dictatorships, in which power
and authority have been seized by
an outstanding personality who
commanded the loyal support of
some compact and highly organ-
ized group, he said, have pro-
duced a Cromwell, a Napoleon, a
Mussolini, a Lenin and a Stalin.

"It is rather startling," he ad-
ded, "for convinced believers in
democracy to observe that this
latter system appears to bring
into authority and power men of
far greater intelligence, far strong-
er character and far more cour-
age than does the system of elec-
tion."

Of 22 Prime Ministers in En-
gland since 1827 not more than
eight will be accorded distin-
guished excellence, intellectual and
moral, by history, in Dr. Butler's
opinion. In Germany, he said,
none of the 20 successors of Bis-
marck approaches him in intel-
lect and capacity for public service;
not more than five of the 49 Pre-
miers of France will survive the
test that is supposed to apply to
the Presidents of the United States,
the Prime Ministers of Great Brit-
ain and to the Chancellors of Ger-
many.

"Just now," he added, "there are
two men in Great Britain, Mac-
donald and Snowden, who are
giving an exhibition of that intel-
lectual and moral power and cour-
age which not only constitute
greatness but adorn it."

"That system of social organiza-
tion and control and that system of
education is a futile failure which
cannot discover excellence and ex-
alt excellence. Why are our midgets
so often in the seats of the
mighty?"

RADIO SHOW CROWDS EQUAL LAST YEAR'S

Attendance Last Night Largest of the Week — Television Big Attraction.

Attendance at the Southwest National Radio Show at the Coliseum, with television attracting hundreds, is equaling the records set last year, the management announced today.

Opening day attendance was smaller than that of the first day last year, but Tuesday's was reported nearly a third larger than on last year's second day. Yesterday's was equal to the third day in 1930, and last night's crowd was the largest of the show.

Afternoon and evening performances of local and national broadcasting stars are presented in the Crystal Studio at the south end of the Coliseum and broadcast by KSD from 4:45 to 5:15, and for alternate hours from 7:30 to 9:30 by KMOX and KWIK. The show will continue through Saturday from noon to 11 p. m. daily.

"The Shadow" of Columbia detective story broadcasts remains a leading attraction. Other performers include Program Director Franklin K. Winkler of the University of Arkansas station, KUOA; Miss Julian Rogers, contralto, and Mildred Rosser Zoll, pianist. St. Louis performers, including a group of child singers and dancers, have a larger part than formerly in this year's program, and are cordially received by the audience.

Television, on the west side of the Coliseum, vies in popularity with a baby show on the east side. The demonstrations got under way yesterday on a regular schedule, 2:30 to 5:30 and 7:30 to 10:30. The three-ton Sanabria apparatus permits projection of the image on a screen six feet square, and persons from the audience, and persons from the Crystal Studio, have opportunity to take part in the demonstrations.

Radio performers will appear at tomorrow's luncheon of the Optimist Club at Hotel Statler. They include "The Shadow," the Hawaiian Duo, the Threesome and Holland Engine, master of ceremonies, under direction of Woody Klose.

Clevelanders Heads Exchange Clubs. MEMPHIS, Tenn., Sept. 24.—Dr. A. A. Jenkins, who joined the Cleveland (O.) Exchange Club 12 years ago, and has never missed a meeting since except when away from home, was elevated to the National Exchange Club presidency yesterday at the conclusion of the 1931 convention.

OKLAHOMA GOVERNOR HERE FOR CONFERENCE

Murray to Conduct Mississippi
Basin States Unemploy-
ment Session.

Gov. William H. Murray of Oklahoma arrived in St. Louis today to prepare for the second session of his Mississippi Basin States Unemployment Conference, to be held here tomorrow.

The meeting, which will open at Hotel Jefferson at 10 a. m., and which he thinks will conclude tomorrow evening, will discuss the two cardinal aims of the conference—providing ways of aiding the unemployed and finding money to finance the work.

The conference, convening originally in Memphis Aug. 25 at Gov. Murray's call, adjourned after a short session, empowering the Governor to fix the time and place for the next gathering. Murray, a Democrat, who is widely known as "Alfalfa Bill," was made chairman of the governing board. Congressman Frank Reid, a Republican, of Aurora, Ill., was elected chairman of the conference. The secretary, Edward P. McGrady of Washington, a labor leader, is ill and cannot come here.

LORD BYNG TO RETIRE AS SCOTLAND YARD CHIEF

World War General Will Quit as
London Police Head at End of
Month.

LONDON, Sept. 24.—Lord Byng of Vimy, former Governor-General of Canada, an outstanding World War figure and Commissioner of London Police since 1928, informed his officers at Scotland Yard today that he would retire at the end of this month.

In 1929 he suffered a severe illness and went to South Africa to recuperate. Recently he became ill again and spent some time in the South of France. There were rumors then that he would resign as the head of Scotland Yard, but these were denied.

Another Bank Closes in Pittsburgh. HARRISBURG, Pa., Sept. 24.—The State Banking Department today announced that it had taken over the Merchants' Savings and Trust Co. of Pittsburgh to protect depositors, creditors and stockholders and to conserve assets. The bank's latest report, last June 30, showed deposits of \$1,003,230. Three banks suspended in Pittsburgh last Monday.

DOES YOUR NOSE CLOG EASILY?

The least little cold, or change in temperature often swells the turbinate bones in the nose. Then the sinuses get blocked and can't drain properly. That's where the trouble comes from. But don't worry... FED-ONTISEPTIC will fix a clogged nose in a hurry. The first application shrinks the swollen turbinates sufficiently to let the air pass by, and starts the healing process of ventilation and drainage, so necessary to good health. FED-ONTISEPTIC is a delightful, improved ephedrine nasal jelly, actively antiseptic. So pleasant, and safe—even for very young children. Write for introductory package, by mail 10c. The Ephedrine Company, Inc., St. Louis. Offices: Third and Locust.

PROTECT
YOUR CHILD
from the menace of
dirty handkerchiefs

School children should use only

KLEENEX

Disposable Tissues

MOTHER—you dread those contagious diseases that spread so rapidly among children—but are you doing everything you can to ward them off?

Have you taught your child to use Kleenex instead of handkerchiefs—and destroy immediately after using?

That is the way to protect your child from disease germs that lurk in dirty handkerchiefs. Almost all contagious diseases are contracted through nose and mouth. And you know how careless children are with handkerchiefs... use them for anything... then back they go to unprotected nose and mouth.

Germs in Kleenex destroyed

When Kleenex is used, germs are destroyed. The cost is so low that each tissue is used but once. No self-infection—no laundering. And

no irritation, because Kleenex is so remarkably soft and absorbent. Mother, think! Can you permit your child to risk the dirty handkerchief, now you have this new, sanitary tissue?

For wiping spectacles; for applying medicines; for minor hand-ages; for wiping razor blades... use a clean, absorbent Kleenex tissue. Kleenex is declared the safest, most efficient way of removing face creams by those experienced in skin care. Sold at all drug, dry goods and department stores.

DISEASE GERMS that thrive in handkerchiefs used during colds include the pneumococcus, Streptococcus, Staphylococcus, and Catarrhalis, bacteriological tests show.

KLEENEX disposable TISSUES
Dirty handkerchiefs are a menace to society!

By W. J. McGoogan.

Lou Terry is the proud possessor of a belt today which proclaims him lightweight boxing champion of Missouri. The belt was presented to Terry by Mayor Miller after he had defeated **Sammy Ward** of Fort Worth, Texas, in a 15-round bout at the Arena last night by a unanimous decision of **Harry Kessler**, **Bob Parkinson**, **Alvin**, **Mike O'Dowd**, **Columbus**, **Waterbury**, **Conn.** (128) 10 rounds.

Wood Wouldn't.

An exchange suggests that another new way to gyp the challenger out of the Harnsworth cup would be to shoot him with the starting gun.

Down but Not Out.

See where the English pound tipped the beam at 4 ringside the other day.

F

At all sum golfers' alibi; The answer to a duffer's prayer is doomed next year to get the air.

No Thrills in This Fight.

If O'Dowd's efforts were his best, and there were many in the crowd who doubted it, then it was fortunate for him that Shea was ill.

Indian Summer.

When Chaplin of the funny stance On Gandhi made a call He wore his famous comic pants, Mahatma none at all.

**SCHAAF VICTOR
OVER GRIFFITHS;
SCHWAKE BEATS
ITALIAN HEAVY**

LAST NIGHT'S FIGHTS

By the Associated Press.

CHICAGO, Sept. 24.—Ernie Schauf, latest Boston heavyweight sensation, today had his ninth consecutive victory, but instead of his ninth straight knockout, it was on the books as a hairline decision over **Georges Ambrose**, a Frenchman.

Schauf earned the unanimous decision of Referee Eddie Purdy and the two judges, but the pro-Grieffiths crowd of more than 14,000 which watched the Chicago Stadium's first offering of the season, disagreed to such an extent that the boosing continued for nearly 15 minutes. The protégé of Jack Sharkey fought a methodical battle and it was his bruising body punching that gained the officials' favor.

Griffiths at His Best. Griffiths, outweighed 21 pounds, scaling 187 to 208 pounds of Schauf, and nearly a head shorter than the Bostonian, came up with one of his best efforts. Rated as an in-and-outter, Tuffy was decidedly "in" last night. He outboxed Schauf most of the way, and many times made the latter miss badly with his vaunted left hook. Schauf was workmanlike and anything but sensational, while Griffiths was the crowd by his busy efforts.

The youngsters will have opportunity to try for a more decisive result on the second round. Schauf is having signed them for a return bout some time next month.

The attendance was surprisingly good, considering conditions, the paid total being 14,308, with gross receipts of \$41,115, and a net of \$38,137.

Schwake Gains Victory. John Schwake, the rolypoly heavyweight from St. Louis, gained six-round decision over **Salvatore Ruggiero**, one of the Italian giants, and won himself many friends among Chicago's boxing fans.

Blubberty John, weighing 225 pounds and appearing to be just a fat boy, gave Ruggiero a pretty thorough pasting. The customers laughed at his almost ridiculous shape when he entered the ring, but they were cheering him at the finish.

He got away to a slow start against his much taller, but lighter, opponent and it appeared that Ruggiero might accomplish what Johnny Risks failed to do—outpoint the fat boy. After the second round, however, John began sidling in, blasting away with both hands at the tall Italian's head and body. His punches did not appear to have much sting, but soon Ruggiero began to wilt and at the finish was hanging on.

Wilson, Cardinals' Leading Catcher, Outhit Cochrane in 1930 World Series

Redbirds' Ace Hit .267 in Four Games, While Mack's First-Stringer Was Stopped With .222 Mark.

By Herman Wecke.

Unless forced to change because of injuries, Gabby Street and Connie Mack will rely on one man to do the catching in the world series.

When the clubs take the field at Sportman's Park in the opening battle Oct. 1, Jimmy Wilson will be behind the bat for the Redbirds and Mickey Cochrane for the Athletics.

Both men are stars of their profession. Cochrane is rated as the greatest in baseball and usually is the unanimous choice for all the All-Star clubs. Wilson is not far behind and that he is capable of taking care of himself in competition with Cochrane was shown in the 1930 world series.

Wilson was out of the first two battles because of an injured ankle, but he worked in the last four. In these games he batted to an average of .267 and fielded 1,000. Cochrane, working all six contests, hit but .222, while he had one error to bring his fielding mark to .376. Each had four hits. Cochrane's, however, were good for 11 bases, while those for Wilson were good for but five. While Wilson was on duty, the Mackmen did not steal a base, while Frankie Frisch, in the second conflict, was the only one to pilfer against Mack's ace.

Cochrane Leads on Season. From these figures it can readily be seen that the Redbirds will be well protected behind the plate, in spite of the season's records of the two players, which give Cochrane a wide margin over the Cardinals' first stringer.

Facing American League pitching, Cochrane has hit to an average of .445, whereas Wilson has batted but .282 for the season. That's an advantage of 63 points in favor of the American League's outstanding receiver. Records of this sort do not mean a great deal as the 1930 series showed. A year ago, Cochrane hit .357 for the full campaign against 318 for Wilson, but in the world series the advantage in both hitting and fielding was with the

STOEFFEN UPSETS FORM IN COAST TENNIS TOURNAMENT

LOS ANGELES, Cal., Sept. 24.—Lester Stoeffen, giant killer of the Pacific Southwest tennis tournament, was confronted with a real argument in the quarter finals of the Pacific Southwest tennis championships singles matches here today.

The 19-year-old Los Angeles junior college youth who figured yesterday in two upsets of the fifth annual hard court tournament must meet George Lott, veteran Philadelphia, seeded No. 2.

Stoeffen, not mentioned in the drawings, cut Wilmer Allison's name from the list in the third round men's singles yesterday by a powerful cannonball service, winning in straight sets, 6-2, 7-5. Then he paired with Jack Tibball, also of Los Angeles, to defeat the English Davis Cup doubles team, Fred Perry and George Hughes, ranked No. 4, 3-6, 6-3, 7-5.

Ellsworth Vines, Pasadena's national singles champion, and defending titleholder, meets Gregory Mangin, Newark, N. J., the player he defeated in last year's final round.

Keith Gledhill, Santa Barbara, intercollegiate singles champion, who figured in yesterday's reversals by turning back the Wimbledon singles champion, Sidney Wood of New York, must test his best strokes today.

Vines is still in the running for all three titles, singles, doubles and mixed doubles, but with his partner, Miss Helen Marlowe, a Trojan co-ed, suffering with badly bruised fingers on her racket hand, the pair face a gloomy prospect since they meet Mrs. L. A. Harper, Oakland, and George Lott, seeded No. 1, in the semifinals of the mixed doubles.

The other bracket brings the John Van Ryns, Mr. and Mrs. against Allison and Miss Edith Cross, San Francisco. Quarterfinals of the women's singles matches complete the day's program.

Fairmount Selections

By BERT E. COLLYER.

1—Roll 'Em Down, Stickaround, Calwick.

High School Elevens Are to Open Practice-Game Season; Veteran Material is Lacking

By Harold Tuthill.

The five City High School League football coaches plan to give their teams a thorough buffing this afternoon in preparation for an active week-end, in which all the squads will see action. Two games, Central at St. Charles and Beaumont at Edwardsville, will be played tomorrow night.

Soldan will meet McBride at the High School Stadium and Cleveland will entertain Christian Brothers College tomorrow afternoon, while Roosevelt is scheduled to battle East St. Louis at the stadium Saturday, starting at 3 p. m.

The five coaches vary in their opinions about the respective merits of their teams, but they are agreed on one thing, that there is a scarcity of veteran material. This is confirmed by figures, because three schools, Roosevelt, Soldan and Central only have five letter-men on the rosters, while Cleveland and Beaumont have two.

The general experience of the material, with the torrid weather, has forced the instructors to work their charges lightly, the result being that changes in the opening practice games of the season will be many and frequent. Burns Franklin, at Beaumont, has two eleven, both of which he will use in the contest with Edwardsville.

The starting Beaumont lineup will be Melville Taylor and Bill Berkenbosch, ends; Godfrey Ray and John Boland, tackles; Barney Finkle and Herbert Wolf, guards; James Morrison, center; Ed McGeary, quarterback; Charles Droke and Bill Wells, halfbacks; and Ray Toberman, fullback. Of this group, only Ray and Finkle are lettermen.

The replacements consist of Varley Free and Frank Jennings, ends; Charles Polleschulz and Roy Gallagher, tackles; Bill Morgan and Charles Dietrich, guards; Elmer Meyer, center; Bob Fuller, quarterback; Bennett and Bob Reed, halfbacks; and Danny Meyer, fullback.

Jimmy Cook has not definitely decided upon the Soldan team that will be pitted against McBride, but the first eleven will be drawn from Howard Dutt, Gene Handley, Bob Minkey, ends; Harry Faintlich and Bernard Mundt, tackles; Leslie Post and John Perry, guards; Helle Horst and Claude Hutton, centers; Charles Jena, Al Bagwell, Sid Fluge, Paul Braudrick, Derouin Ahearn and Willard Oxenhandler, backfield men; Butts, Handley, Dutt, Faintlich and Minkey, service last year under Raymond G. Polster, now basketball coach at Beaumont.

There is an alternate for every position on the team. Coach Lee R. Carlson, when he was asked for his probable Roosevelt lineup against East St. Louis, Carlson has a good backfield in Al Shanon and Jim Brown, should be one of the outstanding backs this year.

Besides Krause, Ciarniello and Brown in the line, Alvera, Iezzi, Drobble, John Jimmer, Raymond Mueller, Jim Hayes, Rafalowski, Joe Arbut, Saxon, Dixon and Snelson, will be in the forward wall at some time. Connors is an understudy for Shanon at the signal-calling job.

Although both of his veterans are tackles, Coach Bert E. Penanga feels that his Cleveland team will have a poor line, but an excellent backfield. He has about 200 boys trying out for vacant positions. The lads are divided into groups according to their weights, one for the Dutch, another the Irish and the third, the Swedes. The Irish and the Swedes take turns scrimmaging against the Dutch, and it is Penanga's hope that some stalwart linemen may be gleaned from the process.

Down at Cleveland, the shapes up with Ralph and Ray Landry at the ends; Dan Cubbage and Walter Cog, tackles; Louis Hesse and Jack Begger, guards; Hugh Reed, center; Earl Hahn, quarter; Tuffy Uffman, left half; Willard Hens, right half, and Bob Scanland, fullback.

Among the challengers for regular jobs are Ralph Bentzinger, guard; John Kilpatrick, Lester Pieper and Delmar Schwinke, in the line, and Charles Koch, John Grassick, John King and Gene Potet, behind the line. Potet was a member of last year's squad, but he has been slow rounding into shape and is not expected to spend much time during the season. Central, which is long overdue for a major athletic championship, may spring a surprise this year. With Julius Jourit, the best person center in the circuit, as a nucleus, Coach Merrill M. Bailey has been constructing a stout team. Flanking Jourit are Russell Potter and Art Brosius, then come Nathan Berman and Pete Keleman.

quartet of Louis Percherack, quarter; Clem Wright, Carl Newson and Cliff Mark. Other leading candidates for positions are Ralph Dorsey, John Kuich, Dave Nax, John Newson, Carl's brother, and Richard Warren.

The official league season will open with a double-header at the stadium, Oct. 24. Following are the practice games: Oct. 2—McBride at Cleveland; Soldan vs. St. Louis University High at the stadium; Oct. 3—Roosevelt at Springfield, Ill. (night); Central vs. Princeton Junior College at Taylor field; Beaumont at Normandy; Oct. 4—Missouri Military Academy at Cleveland; Central vs. Normandy at the stadium; Soldan at Maplewood; Oct. 5—Beaumont at Taylor field; Oct. 6—Beaumont vs. McBride at the stadium; Soldan vs. Princeton at Taylor field. Open data for Cleveland at Central; Oct. 17—C. B. C. vs. Roosevelt at the stadium; Oct. 23—Beaumont at Kirkwood.

PART THREE.
HOW LEGISLATORS GOT AROUND LAW AGAINST NEPOTISM
Bishop Fund And Anti-Smith Le

Members Put Wives of Colleagues on Payroll and Colleagues Did the Same for Them.
MISSING RECORD HINDERS INQUIRY

Warrants Examined by Brunk in His Investigation Make Plain the Subterfuge.
By CURTIS A. BETTS, A Staff Correspondent of the Post-Dispatch.

JEFFERSON CITY, Sept. 24.—The new anti-nepotism section of the Missouri Constitution resulted during the last session of the Legislature in very extensive switching about of family connections.

Examination of the House of Representatives' payroll records, in connection with State Treasurer Brunk's charge that more than \$200,000 was improperly paid on padded clerical lists and to so-called clerks who performed no duties, has disclosed that the old practice of putting the members' wives on the payroll as their clerks has largely disappeared.

Instead, as a subterfuge to avoid the anti-nepotism law, the practice now is for members to put the wives of other members on the payroll, trading about, as it were, for revenue purposes.

Owing to the disappearance of the House record showing the sections of each of the members for clerical positions, or rather for designation as clerks, it is impossible from the available records to obtain complete information on the subject, but some of it can be traced by examining the pay warrants, many of which disclose by the names of the payees that the members cashed warrants made payable to wives, sons, daughters or other relatives of fellow-members.

It has long been commonly known in Jefferson City that relatives on the payroll seldom performed any service for the State. There were exceptions, of course—some in the last session, but not many.

HOW LEGISLATORS
GOT AROUND LAW
AGAINST NEPOTISMMembers Put Wives of Col-
leagues on Payroll and
Colleagues Did the Same
for Them.MISSING RECORD
HINDERS INQUIRYWarrants Examined by
Brunk in His Investiga-
tion Make Plain the Sub-
terfuge.By CURTIS A. BETTS,
A Staff Correspondent of the Post-
Dispatch.JEFFERSON CITY, Sept. 24.—
The new anti-nepotism section of
the Missouri Constitution resulted
during the last session of the Leg-
islature in very extensive switching
about of family connections.Examination of the House of
Representatives' payroll records, in
connection with State Treasurer
Brunk's charge that more than
\$100,000 was improperly paid on
padded clerical lists and to so-
called clerks who performed no
duties, has disclosed that the old
practice of putting the members'
wives on the payroll as their
clerks has largely disappeared.Instead, as a subterfuge to avoid
the anti-nepotism law, the practice
now is for members to put the
wives of other members on the
payroll, trading about, as it were,
for revenue purposes.Owing to the disappearance of the
House record showing the sec-
tions of each of the members
for clerical positions, or rather for
designation as clerks, it is impos-
sible from the available records to
obtain complete information on the
subject, but some of it can be
traced by examining the pay war-
rants, many of which disclose by
their indorsements that many
members cashed warrants made
payable to wives, sons, daughters
or other relatives of fellow mem-
bers.It has long been commonly
known in Jefferson City that rela-
tives on the payroll seldom per-
formed any service for the State.
There were exceptions, of course—
some in the last session, but not
many.On Vacation, Also on Payroll.
Somebody in Jefferson City re-
cently has been passing about a
copy of the Bloomfield Vindicator,
a newspaper published by Frank
A. Brannock, representative from
Stoddard County. While in the
Legislature it was Brannock's prac-
tice to write a weekly letter which
was published in his paper. On his
return to Jefferson City from a
trip home, Brannock wrote one of
these letters, which was published
under date of Jan. 23. One para-
graph was:"Mrs. Frank A. Brannock accom-
panied us on our return from home
and will spend some time here tak-
ing in the sights and enjoying the
proceedings of the Legislature and
taking a much needed and deserved
vacation."The records of the Treasurer's
office show that Mrs. Brannock
went on the payroll Jan. 6, the
date the Legislature convened, and
remained there until well toward
the close, receiving \$389.
In some instances the ingenuity
of the members was taxed in their
trading operations, a particular in-
stance being in the case of a group
of members from a few Southern
Ozark counties. None of the group
traded directly with any other of
the group, but nearly all were tak-
en care of.Ring-Around-a-Rosey.
It is found that Representative
Amox of Ozark County indorsed
the warrants of Clerk Beulah Sil-
vey, while Representative Silvey of
Dallas County indorsed the war-
rants of Clerk Joe Crain, while
Representative Crain of Christian
County indorsed those of Clerk
Emma Pryor, while Representative
Pryor of Wright County indorsed
those of Clerk Kate Smith, while
Representative Moody of Lawrence
County indorsed those of Clerk
Bernie Amox. A sort of ring-
around-a-rosey affair, but there is a
Smith of Laclede County who does
not appear to have indorsed any war-
rants. However, there is a clerk,
Frieda Moody, on the payroll, but
her warrants bore no indorsement
except her own. Reliable infor-
mation is that Miss Moody was regu-
larly employed as a stenographer
and did most of the stenographic
work of those in the circle.Then it appears from the records
that Representative Chancellor of

County indorsed those of Clerk
Pearl V. Chancellor.Representative Baldwin of Cass
County indorsed the warrants ofBishop Cannon Says He Mixed
Funds, Knew What He Was Doing
And That It's Nobody Else's BusinessAnti-Smith Leader, Home
From Europe, Admits
Using \$13,000 of Trust
Money; Replaced It Later
From Contributions.By PAUL Y. ANDERSON,
A Staff Correspondent of the Post-
Dispatch.WASHINGTON, Sept. 24.—Bishop
James Cannon, back in Washington
after an extended European trip,
in an interview last night com-
mented vigorously on recent efforts
of the Senate Campaign Funds
Committee to learn what he did
with funds turned over to him in
1928 for the purpose of defeating
Alfred E. Smith for President. He
made it fairly plain that he does
not intend to tell the committee
what he did with the money.The Bishop unhesitatingly admit-
ted that he mixes political contri-
butions and private trust funds
with his personal funds in the many
bank accounts which he main-
tained. He said he "knew what
he was doing," and considered it
"his own private business." In fact,
he volunteered the information that
he used \$13,000 of private trust
funds for political purposes, replac-
ing it later from campaign contri-
butions.On the other hand, he reiterated
his statement that none of the po-
litical contributions was ever con-
verted to his personal use, and
again suggested that a grand jury
was the proper body to investigate
any violations of law which might
be alleged against him. And he
said it with a distinct note of de-
fiance.No Money From Huston, He Says.
Although the committee last
month received documentary evi-
dence purporting to show that
Bishop Cannon received a contri-
bution of \$5000 from Claudius
Huston, the power lobbyist who
later became chairman of the Re-
publican National Committee, the
Bishop asserted that he never re-
ceived any money from Huston, and
could recall no conversation with
correspondence with him during
the campaign. He said he was
puzzled by the evidence, and could
not explain it.He declared the committee had
treated him "unfairly" by holding
hearings while he was in Europe,
although he said he would not have
testified if he had been present.
Indeed, he intimated that he
refused to testify if he was subpoenaed
—a course already taken by his
associates, the Rev. Sidney Peters,
secretary of the Anti-Smith Demo-
cratic Headquarters Committee, and
Miss Ann Burroughs, its treasurer.Cannon was chairman of that
committee.
Last night's interview took place
in the dingy old Bliss Building,
which for many years has housed
the offices of the Anti-Saloon
League and the Southern Metho-
dist Board of Temperance and
Social Service, and from which the
successful fight was directed to put
national prohibition in the Consti-
tution. After climbing three flights
of dark stairs, the correspondent
found the Bishop propped up in
bed, ready for the fight. Except for
the old bed and an antiquated table,
the room was almost bare of furni-
ture. The place resembled an attic,
but through his window the
Bishop could gaze on the lighted
dome of the Capitol, directly across
the street."My feet are bothering me
some," he said, in explanation of
his situation. What better explana-
tion was there to see a man whom
away up here to see a man whom
the newspapers are describing as
a political corpse? Is it possible
that a dead man can still be a
source of news?Not Ready for Bone Dry Yet.
One gathered that the Bishop
was nettled by the description,
and that he intends to show that
he is still a long way from the
political graveyard.
I asked him first about the sup-
posed contribution from Huston.
W. H. Wood, chairman of the
North Carolina Anti-Smith Com-
mittee, testified last month before
the Senate Committee that he re-
ceived a check for \$5000 from
Cannon. Conrad Pabst, an officer
of the International Trust Co., in
New York, testified that the
check was drawn on an account
which Huston established in that
bank three weeks before the 1928
election."Huston never sent me a cent,"
the Bishop replied. "The money
which I sent Wood was in the form
of a check on the Continental
Trust Co. of Washington, where I
kept political funds. I don't re-
member ever talking to Huston
during the campaign. I'm 67 years
old, but I don't think my memory
is so far gone that I wouldn't re-
member it if it had happened."The account in the Continental,
as has been explained, consisted
mainly of contributions from E. C.
Jameson, the New York broker
who supplied most of the finances
for Cannon's anti-Smith cam-
paign in the South.Evidence before the Senate com-
mittee showed that in addition to
the political account in the Wash-

BISHOP JAMES CANNON.

ington bank, another was kept in
a Richmond bank. Moreover, the
Bishop had personal accounts in
several Virginia banks. He main-
tained an account as executor of
the estate of Mary Moore, deceased
widow of a Methodist preacher, and
he deposited funds which he de-
scribed as assets of the Newspaper
Supply Co., although that com-
pany's charter expired in 1921. Fi-
nally, the evidence showed fre-
quent transfers of funds among
these accounts. One member of the
committee described it as "a la-
byrinth."

"I knew what I was doing,"

the Bishop was asked.

"What business was it if I chose
to mix them?" was his spirited re-
ply. "I knew what I was doing. It
may be a labyrinth to the commit-
tee, but it was simple enough to
me. I knew where every dollar of
it belonged, and eventually it was
all properly distributed. Don't for-
get that I have been doing business
for a long time.""Wouldn't it have been more
businesslike if each fund had been
deposited in a separate account un-
der its own name?" he was asked.
"It wouldn't have been any clear-
er to me. I knew exactly what I
was doing," he replied."Wouldn't the committee and the
public have got a different impres-
sion of the transactions if you had
done that?""I suppose so," said the Bishop,
"but when I made these deposits I
had no idea they would ever be in-
vestigated. I considered it my own
business, and I handled it in my
own way, and that's all there is to
it."Evidence before the committee
last month showed that Cannon
wrote to a bank in Blackstone, Va.,
shortly before the 1928 presiden-
tial election, stating that he ex-
pected soon to deposit \$8000 of
funds belonging to the Newspaper
Supply Co. It showed that he
made this deposit from funds sup-
plied by Jameson as political con-
tributions, and that eventually it
was transferred into his account
as executor of the Moore estate.
It was an interesting transaction, and
I asked him about it.All Plain to the Bishop.
"Yes, the committee seems to
have been very much excited over
that, but it is all plain to me," he
replied, shifting his pillow to
a more comfortable angle. "I
had about \$17,000, representing na-
sets of that company. It is true
the charter expired seven years
earlier. What difference does that
make? The money belonged to
the former stockholders of the
company. Unlike the committee
and some other people, they trust-
ed me, and did not feel that I
would steal it.""When the campaign began, I
had that money in my personal ac-
counts, with absolute authority to
handle it as I pleased. I was un-
der no bond. My main purpose
was to beat Al Smith. It takes
money to run political campaigns.
I took some of the newspaper
supply funds and put them into
the campaign. I was absolutely
certain that contributions would beDeclares He Kept Track of
Where Every Dollar Bel-
onged and That Even-
tually It Was All Properly
Distributed.forthcoming, and that I would be
able to replace it. If something
happened to me—well, I was no
pauper—it would be replaced out
of my estate. Before I got through
I used \$13,000 of it that way. The
contributions came in, as I knew
they would, and I paid it back.
"If I chose to use this money to
beat Al Smith, and then pay my-
self back out of campaign funds,
whose business was it? Of course,
I paid it back with money I got
from Jameson. It had gone into
the campaign. I didn't intend to
pay it out of my own pocket."Early in the 1928 campaign, as
has been told, Cannon met in New
York with Bascom Slemp, former
secretary to President Coolidge and
Republican National Committee
man from Virginia, and former
Senator Joseph Frelinghuysen, Re-
publican of New Jersey. It was
Frelinghuysen, Cannon said last
night, who suggested Jameson as a
possible contributor.I saw Mr. Jameson in his office
in New York," he related. "He is a
fine man. The insinuations that he
was not giving his own money are
contemptible. I suppose he is
worth \$50,000,000. He said to me:
'Bishop, I don't want to know where
or how you spend this money, so
long as you spend it to beat
Smith.'"Jameson, testifying before the
Senate committee last month, said
that after giving Cannon the \$50,
000 which he had originally prom-
ised, he yielded to the Bishop's elo-
quence and gave an extra \$8000 in
the closing days of the campaign.
"I don't know where the money
eventually deposited at Blackstone as funds
of the Newspaper Supply Co. After
the election Cannon again visited
Jameson, told him of a 'deficit'
resulting from the campaign and
got \$7500 more. At the same time,
the evidence showed, the Bishop
wrote a circular letter to 'friends
of the cause,' telling about the
deficit, and collected at least \$2500
more. Jameson exhibited sur-
prise when shown his letter by the
committee."

Cannon's Version.

In partial explanation, Cannon
told the writer last night that he
had expected Wood to repay the
\$5000 which he had been advanced to
the Anti-Smith Committee in North
Carolina, but that he failed to collect
it. Frank R. McNinch was
chairman of the North Carolina
committee, and President Hoover
afterward appointed him a member
of the Federal Power Commission."Of course," said the Bishop, "I
suppose I might have punched Mc-
Ninch and those fellows and got
some of that money back, but I
was getting ready to leave the
country for a rest and I wanted to
straighten out this tangle before I
left. So I handled it the way I
did."There is on record before the
committee a telegram to Jameson
from the late James W. Good, then
Western manager of the Hoover
campaign, in which he stated that
"Bascom Slemp is forming an in-
dependent organization," and asked
Jameson to co-operate. The writer
asked Bishop Cannon if his activity
was a part of Slemp's "indepen-
dent organization.""Certainly not," he said. "Slemp
is a Republican, and we were anti-
Smith Democrats. He met Senator
Frelinghuysen and myself, intro-
duced me to Jameson, and went
away. That's all he had to do with
it."The Bishop did not explain a let-
ter, also in evidence before the
committee, in which he wrote to
Jameson that "Slemp has raised
three-fourths of the amount
pledged by him and expects to have
the rest by Monday.""I remember," the Bishop added,
"that somebody asked me during
the campaign whether the anti-
Smith Democrats would accept con-
tributions from Republicans. I re-
plied that I never looked a gift
horse in the mouth. I didn't care
where the money came from. Our
object was to beat Smith. The only
way we would do it was by electing
Hoover, and we did it."He continued: "The committee
treated me very unfairly by hold-
ing hearings in my absence. I in-
tended to go to Europe, and I in-
tended to stay there."

REVISION OF LAW
FORECAST IF I. C. C.
ALLOWS RATE RISEEx-Gov. Reed of Kansas
Argues for 27 Farm Or-
ganizations Against Rail-
ways' Demand.

By the Associated Press.

WASHINGTON, Sept. 24.—A
forecast that revision might be
sought of any laws used as a basis
for increasing freight rates was
made today by former Gov. Clyde
M. Reed of Kansas, who appeared
before the Interstate Commerce
Commission, arguing for 27 national
and state farm organizations
against the proposed 15 per cent
rate increase. He followed Senator
Brookhart of Iowa, who spoke for
an hour and a half."If it be conceivable," the Kan-
sas said, "that, under the circum-
stances, the outcome of this pro-
ceeding should be the laying of ad-
ditional and an unjustified burden
upon business in general and agri-
culture in particular, the repeal or
modification of any legislation used
as a pretext for this end would be
clearly forecast."The railroads have contended the
increase was justified under a pro-
vision of the transportation law
that the commission shall fix rates
to permit the carriers a fair return
upon their investment.The comparisons used by the
railroad and security holders' at-
torneys in laying their case were
heard of while those operating at
a loss or with a small margin of
profit are never discussed."The railroads," he continued,
"must accept in common with other
industries a drastic cut in earnings
in every major depression. Ideally,Gandhi Tells Commons Members
He Demands Full Independence
For India With No SafeguardsAddresses 200 Conservatives, Liberals and
Laborites, Speaking for Hour and 45
Minutes in Gentle Voice.By the Associated Press.
LONDON, Sept. 24.—Squatting
in his homespun cotton robes be-
fore a big meeting of Conserva-
tive, Liberal and Labor members at
the House of Commons last night,
Mahatma Gandhi voiced the strong-
est demand he has yet made in
London for Indian independence.In a gentle voice that seemed to
soften his bold statements, the In-
dian Nationalist leader declared he
would be satisfied with nothing
short of complete independence.
Safeguards, such as British con-
trol over the army and finance, are
unacceptable, he said, but complete
independence does not exclude
partnership with Britain on a basis
of full equality."I will not accept the hush of
independence, carrying with them
safeguards and reservations," he
told 200 members of the House.
Attacking the idea that the in-
come of railroads is far below that
of competitive business, Reed said
a "popular misunderstanding" had
arisen from the fact that railroad
earnings are stated in terms of the
average for the entire industry
while private business is stated in
terms of firms. He contended only
the stronger private firms usually
are heard of while those operating
at a loss or with a small margin of
profit are never discussed."The railroads," he continued,
"must accept in common with other
industries a drastic cut in earnings
in every major depression. Ideally,railroad rates, like taxes, ought to
be increased in periods of prosper-
ity and lowered in periods of de-
pression. The proposition now be-
fore the Interstate Commerce Com-
mission is the precise reverse of a
sound economic policy."Reed said: "The national trans-
portation system is not threatened,"
adding, "It is the business of the
country and especially the contin-
ued functioning of agriculture that
is in danger."
Asserting the farmer is in no
condition to stand any additional
expense, Reed concluded: "It would
be an intolerable burden to cast
upon an industry that is prostrate
and there is no emergency in rail-
way credit or railway operation
that justifies the imposition of such
a burden."JAPAN ANNOUNCES
WITHDRAWAL OF
TROOPS IN KIRINReport Strengthens Hope in
Geneva That Dispute
With China Will Be Sub-
mitted to Arbitration.By the Associated Press.
GENEVA, Switzerland, Sept. 24.—
An official communiqué from To-
kyo announced today that Japan-
ese troops had been withdrawn
from Kirin in Manchuria. Receipt
of this report was regarded in in-
formed quarters at Geneva as
strengthening the view that the
Japanese Government had decid-
ed to yield to demands for the
withdrawal of troops in Manchuria
and would accept a proposal for
an inquiry by a mixed commission.By the Associated Press.
TOKYO, Sept. 24.—The Japanese
Government issued a statement to-
night explaining to the world its
position in Manchuria, and empha-
sizing that Japan entertained ab-
solutely no territorial ambitions in
Manchuria. This position, said the
Government, had often stated previously.Japan's sole aim, it added, was
to give security to that nation-
als, under treaty rights, might carry
on their enterprises in safety.
The Government's statement fol-
lowed its announcement that Japan-
ese troops were being withdrawn
from points outside the zone of the
Japanese-owned South Manchurian
Railway.Clashes Saturday between Japan-
ese and Chinese troops at Mukden
and several other Manchurian cities
caused casualties on both sides and
caused the Japanese to take pos-
session of the zone along the 693

MISS CLARISSA LEWIS DYER, daughter of Mr. and Mrs. H. Chouteau Dyer, 29 Lenox place, was married yesterday in New York to Noel Flint, son of Mr. and Mrs. Herbert Flint of Chicago, according to a telegram received by the Post-Dispatch this morning. The ceremony took place at St. Mary's Church, West Brighton, Staten Island, the Rev. Dr. Francis Frost officiating.

A small reception followed at the home of Mr. and Mrs. L. Magruder Passano, brother and sister-in-law of the bride, on South St. Austin's place, where she had been visiting. Mr. and Mrs. Flint departed immediately afterward on a wedding trip and will make their home in Chicago.

Mrs. Dyer and other members of her family spent the summer at their cottage at Wannan, Mass.

The bride, who is a member of an old and prominent St. Louis family, is a graduate of Mary Institute and Bryn Mawr College. She made her debut several seasons ago at a tea given by her mother, and is a member of the Junior League. Last winter she was associated with the Chicago Art Institute.

Mr. Flint is a graduate of the Massachusetts Institute of Technology, and studied architecture at the Beaux Arts in Paris.

Mrs. William C. D'Arcy, 6 Hortense place, and her daughter, Miss Helen, will depart today for New York, to be gone until Oct. 1. Miss D'Arcy will visit former school friends, including Miss Dwen Kearney of Farmington, Conn., a classmate at Miss Wright's School, Bryn Mawr, Pa. Miss Kearney will come to St. Louis to take part in the early season debutante activities, and to attend Miss D'Arcy's presentation tea the afternoon of Nov. 3.

Mrs. Grandison D. Royston, 633 North Hanley road, and her daughter, Anna Mary, are expected home Oct. 1 from White Sulphur Springs, W. Va., where they are guests at the Greenbrier Hotel. Miss Royston attended Camp Meenagha at Fish Creek, Wis., earlier in the summer.

Miss Adele Hayes, 4916 McPherson avenue, will return home tomorrow from New York, where she has been visiting after spending the summer at Orr's Island, Me., as the guest of Mr. and Mrs. John Deadrick Lucas of St. Louis, at their summer home.

Mrs. Robert Brookings Wallace of the Senate Apartments, with her daughter, Miss Kathleen, and her son, Lee Wallace, have returned from Harbor Point, Mich., where they occupied the cottage of Mrs. Greenfield Storer, 4335 Maryland avenue, for the summer. Mr. Wallace spent part of the season with his family.

Invitations have been received from Mr. and Mrs. Warren Goddard of Brentmoor and their daughter, Miss Louise Goddard, for an informal party Sunday afternoon at the Dardenne Hunt Club in St. Louis County in honor of Miss Anne Ferriss, daughter of Mr. and Mrs. Henry T. Ferriss, 18 Lenox place, and Miss Marjorie Capen, daughter of Mr. and Mrs. Charles Pond Capen, 4750 Westminster place, both of whom will be debutantes of the season. The guests have been asked to wear sport clothes, and to participate in a "debutante initiation."

The St. Louis Skating Club, organized by a group of St. Louisans to further the art of fancy skating, will hold its first party of the present season tomorrow night from 7 to 8:30 o'clock at the Winter Garden, preceding the rink's formal opening Saturday night. Succeeding skating parties will be held on Monday and Friday nights from 7 to 8 o'clock, and on Wednesday from 5:30 to 7 p. m., so members of the club who attend school and college may participate. George and Leah Muller, who guided the club last year, will arrive Oct. 15 to take charge.

This season the St. Louis Skating Club will endeavor to send representatives to the National Skating meeting at Lake Placid, N. Y., in February.

The membership includes Mr. and Mrs. William R. Cady, Mr. and Mrs. James M. Carpenter, Mrs. Walter Baumgartner, Mr. and Mrs. Erwin P. Hilt, Miss Janet Kauffman, Mr. and Mrs. Edward Mallinckrodt and their sons, Charles W. Moore and his daughter, Frances; Charles H. Merrill and his daughter, Nancy; Miss Helen Morton, Mr. and Mrs. W. Julius Polk and their daughters, Miss Alice and Miss Griselda Polk; Mrs. Eugene T. Senseney, Miss Georgia Simmons, Miss Frances Simpkins, Miss Katherine Sipple, Miss Eleanor Schlafly, Fred G. Durbrow and his daughters, Miss Nancy and Miss Kathryn; Mr. and Mrs. C. G. Besch, Mr. and Mrs. Walter Koken and their daughters, Ann and Jane; Mr. and Mrs. Henry Kemper, Mrs. E. J. Krause and her daughter, Louise; Miss Agnes, Miss Betty and Miss Rosalie Graf, Mr. and Mrs. A. Naslund, Miss R. M. Tojo and Miss Elizabeth Wright.

Dr. and Mrs. Willis Young, 2620 Blaine avenue, are entertaining Mrs. Pauline C. King of Chicago.

Mrs. Joseph M. O'Reilly, 376 Walton avenue, and her family, have returned from Colorado Springs, Colo., where they occupied a cottage for the summer.

Mr. and Mrs. Clarence Howard Tevis, 7553 Wydown boulevard, returned last week from their summer sojourn in California.

PAINTING OF OSCAR JOHNSON

Portrait Being Hung in Lobby of Institute.

A portrait of the late Oscar Johnson, slightly larger than life size, is being hung in the entrance lobby of Oscar Johnson Institute, a research building in the Barnes Hospital group erected as a memorial by members of his family.

The picture is by Lieutenant-Colonel H. Stanley Todd, former St. Louis artist, who was commissioned

by Mrs. Irene Johnson, 38 Portland place, widow of the shoe manufacturer. It was painted from a photograph of Mr. Johnson taken shortly before his death, 15 years ago.

Chosen by Illinois K. of P. By the Associated Press.
PEORIA, Ill., Sept. 24.—Harry Defrates of Peoria was elected grand chancellor of the Illinois lodge of the Knights of Pythias at the sixty-second annual convention here yesterday.

Have you ridden in
the **NEW PACKARD EIGHT** Sedan?

The Packard Eight Five-Passenger Sedan, one of a series of twelve distinguished models ranging in factory price from \$2485 to \$3445.

In the new Packard Eight Sedan—priced at \$2485 at the factory—you are offered motor car luxury that actually has never before existed. If you have not yet driven this distinguished new Packard enclosed car for five—if you have not ridden in it as a passenger—it will be difficult to give you a thorough appreciation of its remarkable performance, its new roadability, its supreme comfort. So why not arrange for a demonstration trip?

We want to show you the new and exclusive Packard Ride Control, which permits you to adjust the hydraulic shock absorbers from the dash. At a touch of the finger tips you can tune spring reaction to meet any condition of road or speed—to compensate for the number and weight of passengers, or for temperature changes. The new Packard cars, of which the Five Passenger Sedan is typical, are literally the easiest riding in all the world.

Then we want to demonstrate the more powerful, smoother, quieter Packard Straight-Eight engine that is now "floated" on rubber mountings; the new Packard-built, four-speed, synchro-mesh transmission, which permits effortless, noiseless gear shifting at all speeds.

We want to point out the longer wheelbase, the wider tread; show you the lower, roomier body with its complete insulation against sound and temperature, its new luxuries of upholstery and appointments—explain what these advanced features mean to Packard owners in increased motor car enjoyment.

In short, we want to give you an entirely new conception of motoring luxury—which can be yours at a cost no greater than you have undoubtedly been paying for a car of far less comfort, beauty and distinction.

If you are paying for a Packard why not own one—why not have the car of tomorrow rather than any car of yesterday? Telephone us, and we will bring the new Packard to your door.

OPEN EVENINGS

WASHINGTON DAY BY DAY

WASHINGTON, Sept. 24.

At that rendezvous of Uncle Sam's retired and active fighting men in the capital, the Army and Navy Club on Farragut Square, two famous brothers often may be seen willing away an hour. They are the "Chatham boys" from Tennessee—one a retired Major-General of the Army, the other a Rear Admiral still active in the Navy.

Until the recent retirement of Brother Frank, these two brothers virtually controlled the money that the Government annually spends on its two great arms of defense.

Brother Joseph still controls the purse strings of the Navy as chief of the Navy group of boys in Tennessee. Joe was his lieutenant and second in command. In those days, both dreamed of military careers. Then the father died. Frank was confronted with the necessity of supporting his brothers and sisters, and a West Point appointment within his grasp had to be postponed.

Joe, however, was more fortunate. He entered the pay corps of the Navy and stuck with it until today he is Paymaster-General. Frank had to wait until the war with Spain to get his chance. He went out as a Major with the First Tennessee Volunteers to see active service in the Philippines. There he rose to the rank of Colonel.

AFTER this war he, too, drifted into the business end of the Army, obtaining a commission as Captain of the regulars in the Quartermaster Corps. Before he reached the age of retirement, he had attained the post of Quartermaster-General.

But the "General" is a fighting man primarily. When the World War came, he went over as Quartermaster of the First Division. Then he became Corps Quartermaster and later Inspector-General of all quartermaster activities. Before the war was over he was drawn into combat to command the 104th Infantry in the Meuse-Argonne drive. He retained that post until the end of the war.

SIGNING A BUILDING.

From the Boston Post.
THE names of writers appear on their books and of composers on their music. Painters put their names on their pictures. Why should not architects sign their buildings? This question is being discussed a good deal in England and the general consensus is that it should be done. There does not seem to be any reason why architects should not get as much credit for their buildings as a novelist does for his books.

CANNON DECLARES
FUND M'ING WAS
HIS OWN BUSINESS

Continued From Page One.

formed Chairman Nye that church duties would require my presence in Europe, but he went ahead just the same.

"Would you have testified if you had been here?" he was asked.

"Why should I?" was the reply. "I consider that the committee is proceeding in violation of law. I have made that very plain, and I have appealed to the courts to grant

a writ of prohibition to stop the investigation."

"Then what difference did it make whether you were absent?" the writer inquired.

"I would have been able to listen to the testimony, and at the end of each day I could have given a statement to the press explaining such portions of the testimony as might require explanation," the Bishop replied.

Asked if he expected to be present when the committee resumes hearings in October, he said that his clerical duties would require him to be in Atlanta at that time. He added that nothing thus far disclosed by the committee seemed

to warrant an answer by him.

"If I have committed any crime, or broken any law, why doesn't the grand jury indict me?" he asked.

Not knowing the answer to this question, the writer changed the subject by asking a question of his own: "Do you expect to prevent Gov. Roosevelt from getting the Democratic presidential nomination next year?"

"We may not be able to stop him at the convention," the Bishop responded, pulling the counterpane up under his chin, "but if he is nominated, we will beat him with Hoover."

Druggist and Customers Held Up.

Alvin Novack and four customers in his drug store at 1751 Ridge avenue, East St. Louis, were held up last night by two armed robbers who ordered all to a rear room and fled with \$98 taken from a cash register.

JAPAN ANNOUNCES WITHDRAWAL OF TROOPS IN KIRIN
Continued From Page One.

of the railway.
A note from Secretary of State Stimson of the United States, calling for a peaceful settlement of the dispute between Japan and China, was presented at the Foreign Office today.

STIMSON SUPPORTS ACTION OF LEAGUE
Associated Press.
WASHINGTON, Sept. 24.—Secretary of State Stimson has urged

a cessation of fighting between Chinese and Japanese troops and has asked for withdrawal "from the present situation of danger." This action, presumably through the diplomatic representatives in Washington, was made known in a note to the League of Nations expressing sympathy with its stand on the Manchurian situation.

The League, in a resolution, has called on Japan to halt the advance of troops into the disputed territory and asked that the United States take a similar position.

Replying yesterday, Stimson assured the League of this Government's "wholehearted sympathy."

"I have already urged cessation of hostilities and a withdrawal

from the present situation of danger," he said, "and will continue earnestly to work for the restoration of peace."

Institute of Pacific Relations Calls Off Meeting.
SHANGHAI, Sept. 24.—The Sino-Japanese dispute in Southern Manchuria caused the indefinite postponement today of the fourth biennial conference of the Institute of Pacific Relations, which had planned to convene at Hangchow Oct. 21. Authorities said disturbed relations between the two countries would make it impossible for Japanese and Chinese delegates to meet in a friendly spirit.

A majority of the delegates from

America, Great Britain and British dominions are already en route to attend the meeting. All but three or four of the American delegates already are in Japan or China or crossing the Pacific, and all other delegations except the Japanese are well on their way to China. Besides Jerome D. Greene, chairman of the Pacific Council, the American delegation includes Willis J. Abbott of Boston, Isaiah Bowman of New York, Miss Ada L. Comstock of Radcliffe College, Cambridge, Mass., and Chester H. Rowell, Berkeley (Cal.) publicist.

Despite postponement of the main conference, the institute's Pacific Council and Research Council

will meet here about Oct. 12 to discuss the future, especially a five-year research program for which the Rockefeller Foundation recently gave \$250,000.

STOCKS FALL AS RAPIDLY AS THEY ROSE YESTERDAY

Some Shares Penetrate New Lows for Bear Market—U. S. Steel and American Telephone Tumble More Than 8 Points—Sante Fe and Norf. & W. Drop About 15.

By the Associated Press.
NEW YORK, Sept. 24.—The stock market plunged precipitately today from the high level reached in yesterday's sweeping upturn. Prices broke wide open in the late trading, some in the market, and new lows for the bear market were reached. It was one of the swiftest drops of the year. The bond market tried to advance for a time, but finally turned downward. In other markets, a portion of yesterday's upturn, however.

U. S. Steel and American Telephone tumbled more than 8 points. Sante Fe and Norfolk & Western dropped about 15. Final prices were around the lowest. Southern Railway dropped 10 points. American Telephone regained several points on announcement of the regular dividend, issues of 5 to 7 included New York Central, Baltimore and Ohio, Consolidated Chemical, and others. General Motors and General Electric lost about 3, and similar declines appeared throughout the list. The turnover was around 3,000,000 shares.

Foreign exchanges were extremely unsettled, with several currencies breaking widely. Sterling was quoted at \$3.91, 2 1/2 cents. The Danish krona was at 2 1/2 cents. The German mark lost 1/2 of a cent. The Swiss franc, however, was firm, and the French franc steady.

While the British crisis had been the most unsettling element of uncertainty hanging over the market, possible repercussions from the Danish krona had an unsettling influence today. Advance in the Swedish bank rate to 6 per cent, and heaviness of Scandinavian currencies, received the added responsibility upon New York as the world's chief money center were reflected in an abrupt stiffening of the money market. This would not generally be regarded in Wall street as an adverse development, for many bankers have regarded the 1 1/2 per cent rate as largely artificial, reflecting little save the stagnant condition of capital. An increase in the rediscount rate based upon revived demand for commercial funds at a lower rate, however, would be more encouraging than an upturn reflecting increased foreign requirements.

The rate for bankers' acceptances, which pushed up 1/2 per cent yesterday, reflected another 1/2 of a cent today. Time money, which has recently been nominally quoted at 1 1/2 to 2 per cent—there has been virtually no demand—was nominally quoted at 2 for all maturities today. Call money was firm at 1 1/2 per cent, with no funds available at concessions in the outside market.

Selling of U. S. Bonds.
The tightening of the money market brought heavy selling into the United States Government securities in the bond market, which have recently been sold at record low yields.

Of course, the reaction in stocks reflected to some degree the price taking and reaction in the bond market. Although the bond market was lifted yesterday, veteran buyers were said to have stood aside, letting the technical factors run their course before renewing their activities.

TODAY'S NEW YORK STOCK MARKET (COMPLETE) SPECIAL ASSOCIATED PRESS WIRE

NEW YORK, Sept. 24.—Total sales today on the New York Stock Exchange amounted to 3,128,843 shares, compared with 2,905,595 yesterday, 2,592,950 a week ago and 4,067,710 a year ago. Total sales from Jan. 1 to date were 420,221,663 shares, compared with 418,535 last year and 815,142,110 two years ago.

Following is a complete list of stocks traded in, giving sales, high, low, close and net changes:

CHAPTER SEVEN.

HE left her in the capable hands of the kindly farmer's wife and returned some hours later to make sure she had suffered no great ill from exposure. The airplane company had wired, he told her, and the relatives of McKenon, the pilot, of the steward and mechanic as well as the Eames relations would be on to claim the bodies. "You were right about Miss Smith," he said. "No one has any record of her. Her passage was booked through an agent who does not know the name of the person booking it."

Tony had left the city then, thought Fanchon. It would be some time before he learned of the accident. It would, of course, be in the papers. But he might be where papers were not to be had.

In the morning she left for New York.

She left with Dr. Warren more than enough money to take care of.

"Miss Smith," "Not," said the doctor, sadly, "that it will be needed. It is impossible that she live through the day," he said.

He took Fanchon's address in care of Mrs. Carstairs. And on her arrival at the depot to await the train, which would be flagged for her, she was given a wire by the station agent.

"Immensely happy and grateful for your escape. Will meet you Pennsylvania Station. All my love, Aunt Jennie."

There was no going back.

In the drawing room which she had engaged, Fanchon, in a borrowed coat and hat, sat staring out of the windows, listening to the heat of the wheels along the shifting tracks.

"Impostor, impostor," they said to her, impostor, impostor.

"But she argued that, in a sense, she was doing no real harm. Jennie Carstairs had never known Evelyn Howard. She could, therefore, never have loved her. The girl was literally nothing to her, save someone of her blood to whom she owed a belated duty. If Fanchon took her place, Fanchon would, she vowed, live up to it; she would give back value received, for affection and peace she could render affection and duty in return. And when time had passed and there was no longer any danger, should would go quietly away and never bother anyone again. It was not on the cards that Evelyn would live.

SHE thought of Evelyn dying, with no one of her own about her, and her heart constricted with an agony of shame and terror and self loathing. But she had spoken, or rather, she had kept silent. It was too late, too late.

Evelyn would die, without recovering consciousness. Jennie Carstairs would be spared much unhappiness and self reproach, and she, Fanchon, would find, for a little time, at least, a measure of safety and peace.

She opened Evelyn's big, flat, rosy handbag, stained with rain and with Fanchon's own blood. There were letters in it. From Mrs. Carstairs. Long letters, written in a vital, nervous sort of hand. There was money. There were the photographs of Evelyn's parents; there were snapshots of Fanchon thought, the place in which Evelyn must have lived and called home. There were snapshots of the school in Honolulu and the one in San Francisco.

It would not be hard. It would be more or less natural that Evelyn would not speak much, or often, of her mother and father to the people who had cast them out. As far as Hawaii went, Fanchon was on perfectly safe ground there. She studied the letters, the photographs.

Suddenly a thought reached her, stopped her heart for an instant. Evelyn must have written her aunt. It was beyond conception that her hand and Fanchon's should be alike. Fanchon fixed that fact firmly in her mind. She must remember.

She remembered something else, with an effort. Remembered that among the small pieces of luggage Evelyn had brought on the plane had been a little portable typewriter. It was quite within reason that her letters to Mrs. Carstairs had been written on the machine. If so, so much the better.

She thought of the meeting that lay ahead of her. She longed for it, and yet shrank from it. But no great display of affection on her part nor on the part of Mrs. Carstairs would be necessary or even reasonable. For they had never known one another.

YET Jennie Carstairs' wire had been affectionate in the extreme. Due, thought Fanchon, logically, to the situation, to the tremendous peril in which she knew her niece had been placed. It was natural enough. Natural, too, that she would not be Evelyn to talk much of the accident.

Half a dozen times before she reached New York, Fanchon was seized with a frantic desire, born of sheer, blind panic, to get out at the first best station, to run away, to hide, to find a ship that sailed for far countries and alien seas, to run away from the old life of Fanchon Meredith, the hunted life of "Miss Smith," the self chosen, stolen life of Evelyn Howard, who was going toward safety, toward people who cared, toward freedom.

Once she rose and took down the borrowed hat from the rack. Once she picked up the straw suit case the farmer's wife had loaned her, with a few bare necessities in it; once she walked, suitcase in hand, to the door of the drawing room and laid her hand upon the knob. But returned at once to her seat by the window and her bewildered, frantic thinking. She could not go back, she must not go. Her mind felt hurt and bruised with the

SYNOPSIS

Leaving Hawaii shortly after her father's death, young and beautiful Fanchon Meredith goes to San Francisco, where she meets and loves a handsome man named Tony. Fanchon is shocked to learn that Tony is a racketeer, implicated in a recent murder. She, too, is now wanted. Fanchon escapes in an airplane under the name of "Smith." Evelyn Howard, whom she had met on the boat coming from Hawaii, is aboard. Evelyn is enroute to New York to live with her aunt, the wealthy Mrs. Carstairs, whom she has never met. After Fanchon confides in Evelyn, the latter treats her coolly. The plane crashes and Fanchon is the only survivor. She decides to escape Tony and the past and start life anew by masquerading as Evelyn. She requests the doctor to wire Mrs. Carstairs that she is safe.

fort at thought, her bandaged arm ached, her wrenched muscles cried out.

"You have a very bad shock and shaking up," Dr. Warren had said, "and I wish you would stay on with Mrs. Lawson for a few days. But, if you won't, you won't. Only my orders—professional orders, are—that when you reach your destination, you permit yourself to be put to bed and you stay there."

She had promised.

At the first big city they reached, reporters boarded the train and invaded her drawing room. Eager, shock-haired boys, one lean, sallow man and a couple of pretty "sob sisters." They apologized for their intrusion, but told her that in the interest of the news and public they must have her first-hand story of the accident.

FANCHON knew that it was safer not to antagonize them. They perched on the seats, on the arms of things, even squatted on the floor, listening avidly. The train stopped over there for half an hour. During that time Fanchon told them what she recalled of the accident itself. . . . of the first part of the flight. Eames, one of the reporters said, had been an important man in his town. This was being played up in the press. The pilot, too, McKinnon, for he had had a war record and had also been on a successful flight from England to Australia. He also was news, said the reporters, not callous, not unkind, simply seeking to feed their master, the insatiable press.

And Fanchon herself was news. By now they all knew that Evelyn Howard was a niece of Mrs. Carstairs—the Mrs. Carstairs. That was news. And news, too, the wire that reached her at the same station at which the reporters got on.

"Waiting anxiously. Collin would have come and brought you the rest of the way, but he is in Canada and cannot be reached in time," wired "Aunt Jennie."

Collin? thought Fanchon. But during their rapid fire conversation, the reporters enlightened her. Collin was Mrs. Carstairs' only son. A big game hunter. A polo player. An eligible bachelor. One of the most eligible. He was in the North Woods at present, she learned, simply by listening when one of the reporters asked her: "We understand that Mr. Collin Carstairs is up North?" and by nodding intelligently.

"Continued Tomorrow." (Copyright, 1931.)

BROWN AND GREEN ARE FALL FAVORITES

ALTHOUGH a large crowd was on hand to witness the opening of the fall racing meet at Fairmount last Saturday, due to torrid temperatures it was not as representative socially as other opening days have been. For the same reason left-over summer styles prevailed in the attire of the assembly.

Here and there, however, a style conscious woman who had done some fall shopping was not to be denied an opportunity of displaying her new woolen frock and her tip tilted felt hat. Many others reconciled the calendar with the unseasonable weather by wearing a new fall hat with a summer print of pastel crepe frock. Already it was evident that the Eugenie hat with the long plume, so revolutionary a month or so ago, is now a little passe.

The tilted line and the bowler crown remain but newer tendencies in millinery as evidenced at this gathering are the draped hat in felt, velvet or chenille manipulated to achieve the forward dip and

adorned almost exclusively with wool made with rayon sleeves and coming down over tight lower sections. The collar is of baronduke and the hat of green felt with a swirling feather fancy.

Of green jersey is the next frock, the bodice made with a surprise closing edged with pointed scallops. The bowler hat is of green felt trimmed at one side with a curled oot feather. The belt has a strip of baronduke across the back which matches a scarf which, happily,

was detachable. Green kid and suede were combined in the pumps.

BROWN and green registered heavily among the new costumes with black and white combinations next in popularity. There also were tones of rust and some wine reds in the color scheme.

One of the new sheer wool materials, beige in color, fashioned into a short sleeved frock. The other seated figure illustrates one of several costumes noted composed of white satin blouse worn with a black skirt. In this instance a blouse and short coat also are of white satin, the skirt of black satin.

Last in the picture is a black and white striped lightweight wool Blon jacket suit, worn by a dignified matron with a waistcoat of white pique.

Contrasting effects at the neckline were noted in the new frocks. One of these, as sketched, had a large red velvet bow, one end of which came from the shoulder seam, placed upon a dark brown wool frock.
